All individuals shall be treated equitably in the receipt of district and school services. Personally identifiable information collected in the implementation of any district program, including, but not limited to, student and family information for the free and reduced-price lunch program, transportation, or any other educational program, shall be used only for the purposes of the program, except when the Superintendent or designee authorizes its use for another purpose in accordance with law. Resources and data collected by the district shall not be used, directly or by others, to compile a list, registry, or database of individuals based on any of the categories identified above.

District programs and activities shall be free of any discriminatory use, selection, or rejection of textbooks, instructional materials, library books, or similar educational resources.

The use of any textbook, instructional material, supplemental instructional material, or other curriculum for classroom instruction, or any book or other resource in a school library shall not be rejected or prohibited by the Board or district on the basis that it includes a study of the role and contributions of any individual or group consistent with the requirements of Education Code 51204.5 and 60040, unless such study would violate Education Code 51501 or 60044. (Education Code 243)

Additionally, the use of any textbook, instructional material, supplemental instructional material, or other curriculum for classroom instruction, or any book or other resource in a school library shall not be adopted by the Board or district if the use would subject a student to unlawful discrimination as specified in Education Code 220. The Superintendent or designee shall take prompt, reasonable actions to remove any identified barrier. The Superintendent or designee shall report the findings and recommendations to the Board after each review.

All complaints alleging unlawful discrimination in district programs and activities shall be investigated and resolved in accordance with Board Policy Administrative Regulation 1312.3 - Uniform Complaint Procedures, for students, and Administrative Regulation 4030 - Nondiscrimination in Employment, for employees.

Pursuant to 34 CFR 104.8 and 106.8, the Superintendent or designee shall notify students, parents/guardians, employees, employee organizations, applicants for admission and employment, and sources of referral for applicants about the district's policy on nondiscrimination and related complaint procedures. Such notification shall be included in the annual parental notification distributed in accordance with Board Policy/Exhibit (1) 5145.6 - Parent/Guardian Notifications and, as applicable, in announcements, bulletins, catalogs, handbooks, application forms, or other materials

distributed by the district. The notification shall also be posted on the district's website and social media and in district schools and offices, including staff lounges, student government meeting rooms, and other prominent locations as appropriate.

The Superintendent or designee shall notify parents/guardians regarding their children's right to a free public education regardless of immigration status or religious beliefs and their rights related to immigration enforcement. (Education Code 234.7)

The district's nondiscrimination policy and related informational materials shall be published in a format that parents/guardians can understand. Additionally, when 15 percent or more of a school's students speak a single primary language other than English, those materials shall be translated into that other language. (Education Code 48985; 20 USC 6312)

Access for Individuals with Disabilities

District programs and facilities, viewed in their entirety, shall be in compliance with the Americans with Disabilities Act (ADA) and any implementing standards and/or regulations.

When structural changes to existing district facilities are needed to provide individuals with disabilities access to programs, services, activities, or facilities, the Superintendent or designee shall develop a transition plan that sets forth the steps for completing the changes.

The Superintendent or designee shall ensure that the district's web and mobile applications comply with technical standards prescribed by law, and as necessary, shall provide appropriate auxiliary aids and services to afford individuals with disabilities equal opportunity to participate in or enjoy the benefits of district services, programs, or activities. An ADR process such as mediation may be offered to resolve complaints that involve more than one student and no adult. However, mediation shall not be offered or used to resolve any complaint involving sexual assault or where there is a reasonable risk that a party to the mediation would feel compelled to participate. The Superintendent or designee shall ensure that the use of ADR is consistent with state and federal laws and regulations.

The district shall protect all complainants from retaliation. In investigating complaints, the confidentiality of the parties involved shall be protected as required by law. For any complaint alleging retaliation or unlawful discrimination, the Superintendent or designee shall keep the identity of the complainant, and/or the subject of the complaint if different from the complainant, confidential when appropriate and as long as the integrity of the complaint process is maintained.

When an allegation that is not subject to UCP is included in a UCP complaint, the district shall refer the non-UCP allegation to the appropriate staff or agency and shall investigate and, if appropriate, resolve the UCP-related allegation(s) through the district's UCP.

The Superintendent or designee shall provide training to district staff to ensure awareness and knowledge of current law and requirements related to UCP, including the

steps and timelines specified in this policy and the accompanying administrative regulation.

Assistant Superintendent of Personnel Services

The compliance officer who receives a complaint may assign another compliance officer to investigate and resolve the complaint. The compliance officer shall promptly notify the complainant and respondent if another compliance officer is assigned to the complaint.

In no instance shall a compliance officer be assigned to a complaint in which the compliance officer has a bias or conflict of interest that would prohibit the fair investigation or resolution of the complaint. The Superintendent or designee shall ensure that employees assigned to investigate and resolve complaints receive training and are knowledgeable about the laws and programs

at issue in the complaints to which they are assigned. Training provided to such employees shall cover current state and federal laws and regulations governing the program, applicable processes for investigating and resolving complaints, including those alleging unlawful discrimination, harassment, intimidation, or bullying; applicable standards for reaching decisions on complaints, and appropriate corrective measures. Assigned employees may have access to legal counsel as determined by the Superintendent or designee.

The compliance officer or, if necessary, an appropriate administrator shall determine whether interim measures are necessary during an investigation and while the result is pending. If interim measures are determined to be necessary, the compliance officer or the administrator shall consult with the Superintendent, the Superintendent's designee, or, if appropriate, the site principal to implement one or more interim measures. The interim measures shall remain in place until the compliance officer determines that they are no longer necessary or until the district issues its final written decision, whichever occurs first.

The annual notification, complete contact information of the compliance officer(s), and information related to Title IX as required pursuant to Education Code 221.61 and 34 CFR 106.8 shall be posted on the district website.

The Superintendent or designee shall ensure that all students and parents/guardians, including students and parents/guardians with limited English proficiency, have access to the relevant information provided in the district's policy, regulation, forms, and notices concerning the UCP.

If 15 percent or more of students enrolled in a particular district school speak a single primary language other than English, the district's UCP policy, regulation, forms, and notices shall be translated into that language, in accordance with Education Code 234.1 and 48985. In all other instances, the district shall ensure meaningful access to all relevant UCP information for parents/guardians with limited English proficiency.

Filing of Complaints

The complaint shall be presented to the compliance officer who shall maintain a log of complaints received, providing each with a code number and a date stamp. If a site administrator not designated as a compliance officer receives a complaint, the site administrator shall notify the compliance officer.

All complaints shall be filed in writing and signed by the complainant. If a complainant is unable to put a complaint in writing due to conditions such as a disability or illiteracy, district staff shall assist in the filing of the complaint. (5 CCR 4600)

Complaints shall also be filed in accordance with the following rules, as applicable:

1. A complaint alleging district violation of applicable state or federal law or regulations governing the programs specified in the accompanying Board policy may be filed by any individual, public agency, or organization. (5 CCR 4600)
2. Any complaint alleging noncompliance with law regarding the prohibition against student fees, deposits, and charges or any requirement related to the LCAP may be filed anonymously if the complaint provides evidence, or information leading to evidence, to support an allegation of noncompliance. (Education Code 49013, 52075)

A complaint about a violation of the prohibition against the charging of unlawful student fees may be filed with the principal of the school or with the Superintendent or designee. (Education Code 49013)

3. A UCP complaint, except for a UCP complaint alleging unlawful discrimination, harassment, intimidation, or bullying, shall be filed no later than one year from the date the alleged violation occurred. (5 CCR 4630)

For complaints related to the LCAP, the date of the alleged violation is the date when the County Superintendent of Schools approves the LCAP that was adopted by the Board. (5 CCR 4630)

4. A complaint alleging unlawful discrimination, harassment, intimidation, or bullying may be filed only by a person who alleges having personally suffered unlawful discrimination, a person who believes that any specific class of individuals has been subjected to unlawful discrimination, or a duly authorized representative who alleges that an individual student has been subjected to discrimination, harassment, intimidation, or bullying. (5 CCR 4630)

5. A complaint alleging unlawful discrimination, harassment, intimidation, or bullying shall be initiated no later than six months from the date that the alleged unlawful discrimination occurred, or six months from the date that the complainant first obtained knowledge of the facts of the alleged unlawful discrimination. (5 CCR 4630)

The time for filing may be extended for up to 90 days by the Superintendent or designee for good cause upon written request by the complainant setting forth the reasons for the extension. (5 CCR 4630)

6. When a complaint alleging unlawful discrimination, harassment, intimidation, or bullying is filed anonymously, the compliance officer shall pursue an investigation or other response as appropriate, depending on the specificity and reliability of the information provided and the seriousness of the allegation.

7. When a complainant of unlawful discrimination, harassment, intimidation, or bullying, or the alleged victim, when not the complainant, requests confidentiality, the compliance officer shall inform the complainant or victim that the request may limit the district's ability to investigate the conduct or take other necessary action.

When honoring a request for confidentiality, the district shall nevertheless take all reasonable steps to investigate and resolve/respond to the complaint consistent with the request.

Mediation

Within three business days after receiving the complaint, the compliance officer may informally discuss with all the parties the possibility of using mediation to resolve the complaint. Mediation shall be offered to resolve complaints that involve more than one student and no adult. However, mediation shall not be offered or used to resolve any complaint involving an allegation of sexual assault or where there is a reasonable risk that a party to the mediation would feel compelled to participate. If the parties agree to mediation, the compliance officer shall make all arrangements for this process.

Before initiating the mediation of a complaint alleging retaliation or unlawful discrimination, harassment, intimidation, or bullying, the compliance officer shall ensure that all parties agree to permit the mediator access to all relevant confidential information. The compliance officer shall also notify all parties of the right to end the informal process at any time.

If the mediation process does not resolve the complaint within the parameters of law, the compliance officer shall proceed with an investigation of the complaint.

The use of mediation shall not extend the district's timelines for investigating and resolving the complaint unless the complainant agrees in writing to such an extension of time. If mediation is successful and the complaint is withdrawn, then the district shall take only the actions agreed upon through the mediation. If mediation is unsuccessful, the district shall then continue with subsequent steps specified in this administrative regulation.

Investigation of Complaint

The compliance officer shall begin an investigation into the complaint within 10 business days of receiving the complaint.

Within one business day of initiating the investigation, the compliance officer shall provide the complainant and/or the complainant's representative with the opportunity to present the information contained in the complaint to the compliance officer and shall notify the complainant and/or representative of the opportunity to present the compliance officer with any evidence, or information leading to evidence, to support the

allegations in the complaint. Such evidence or information may be presented at any time during the investigation.

In conducting the investigation, the compliance officer shall collect all available documents and review all available records, notes, or statements related to the complaint, including any additional evidence or information received from the parties during the course of the investigation. The compliance officer shall individually interview all available witnesses with information pertinent to the complaint, and may visit any reasonably accessible location where the relevant actions are alleged to have taken place. At appropriate intervals, the compliance officer shall inform the parties of the status of the investigation.

To investigate a complaint alleging retaliation or unlawful discrimination, harassment, intimidation, or bullying, the compliance officer shall interview the alleged victim(s), any alleged offender(s), and other relevant witnesses privately, separately, and in a confidential manner. As necessary, additional staff or legal counsel may conduct or support the investigation.

A complainant's refusal to provide the district's investigator with documents or other evidence related to the allegations in the complaint, failure or refusal to cooperate in the investigation, or any other obstruction of the investigation may result in the dismissal of the complaint. Refusal by the district to provide the investigator with access to records and/or information related to the allegations in the complaint, failure or refusal to cooperate in the investigation, or any other obstruction of the investigation may result in a finding, based on evidence collected, that a violation has occurred and in the imposition of a remedy in favor of the complainant. (5 CCR 4631)

Timeline for Investigation Report

Unless extended by written agreement with the complainant, the compliance officer shall prepare and send to the complainant a written investigation report, as described in the section "Investigation Report" below, within 60 calendar days of the district's receipt of the complaint. (5 CCR 4631)

Investigation Report

For all complaints, the district's investigation report shall include: (5 CCR 4631)

1. The findings of fact based on the evidence gathered

The district may also consider training and other interventions for the larger school community to ensure that students, staff, and parents/guardians understand the types of behavior that constitute unlawful discrimination, harassment, intimidation, or bullying, that the district does not tolerate it, and how to report and respond to it.

When a complaint is found to have merit, an appropriate remedy shall be provided to the complainant or other affected person.

In addition, unless otherwise provided for in law, the district may not discriminate against an employee in any term or condition of employment, or otherwise penalize a person, including termination, based on the person's use of cannabis off the job and away from

the workplace, or on a drug screening which finds that the person has nonpsychoactive cannabis metabolites in the person's hair, blood, urine, or other bodily fluid. However, the district retains the right to maintain drug-free schools or prohibit employees from possessing, being impaired by, or using cannabis while on the job. (Government Code 12954)

 - e. Requiring an employee to disclose information relating to the employee's reproductive health decision-making

f. Including a statement in a job advertisement, posting, application, or other material that an applicant is required to have a driver's license, unless the district reasonably expects driving to be one of the job functions for the position and reasonably believes that satisfying the job function using an alternative form of transportation would not be comparable in travel time or cost to the district

The Board also prohibits retaliation against any district employee who opposes any discriminatory employment practice by the district or its employees, agents, or representatives or who complains, reports an incident, testifies, assists, or in any way participates in the district's complaint process pursuant to this policy. (Government Code 12964.5)

Any supervisory or management employee who observes or has knowledge of an incident of prohibited discrimination or harassment, including harassment of an employee by a nonemployee, shall report the incident to the Superintendent or designated district coordinator within one workday. The Superintendent or designee shall use all appropriate means to reinforce the district's nondiscrimination policy, including providing training and information to employees about how to recognize harassment, discrimination, or other prohibited conduct, how to respond appropriately, and components of the district's policies and regulations regarding discrimination. The Superintendent or designee shall regularly review the district's employment practices and, as necessary, shall take action to ensure district compliance with the nondiscrimination laws.

Any district employee who engages in prohibited discrimination, harassment, or retaliation or who aids, abets, incites, compels, or coerces another to engage or attempt to engage in such behavior in violation of this policy shall be subject to disciplinary action,

Complaint Procedure

Any complaint alleging unlawful discrimination or harassment covered by this administrative regulation and accompanying Board policy shall be addressed in accordance with the following procedures:

1. Notice and Receipt of Complaint: A complainant may inform a direct supervisor, another supervisor, the coordinator, the Superintendent or, if available, a complaint hotline or an ombudsman.

The complainant's direct supervisor may be bypassed in filing a complaint when the supervisor is the subject of the complaint.

The complainant may first attempt to resolve the situation informally with the complainant's supervisor before filing a complaint.

A supervisor or manager who has received information about an incident of discrimination or harassment, or has observed such an incident, shall report it to the coordinator, whether or not the complainant files a complaint.

The complaint should contain the complainant's name, the name of the individual who allegedly committed the act, a description of the incident, the date and location where the incident occurred, any witnesses who may have relevant information, any available evidence of the discrimination or harassment, and any other pertinent information which may assist in investigating and resolving the complaint.

2. Investigation Process: The coordinator shall initiate an impartial investigation of an allegation of discrimination or harassment within five business days of receiving notice of the alleged discriminatory or harassing behavior, regardless of whether a complaint has been filed or whether the complaint is complete.

The coordinator shall meet with the complainant to describe the district's complaint procedure and discuss the actions being sought by the complainant in response to the allegation. The coordinator shall inform the complainant that the investigation of the allegations will be fair, timely, and thorough and will be conducted in a manner that provides all parties due process and reaches reasonable conclusions based on the evidence collected. The coordinator shall also inform the parties that the investigation will be kept confidential to the extent possible, but that some information may be disclosed as necessary to conduct an effective investigation.

If the coordinator determines that a detailed fact-finding investigation is necessary, the investigation shall begin immediately. As part of this investigation, the coordinator should interview the complainant, the person(s) accused, and other persons who could be expected to have relevant information.

The coordinator shall track and document the progress of the investigation to ensure reasonable progress and shall inform the parties as necessary.

When necessary to carry out the investigation or to protect employee safety, the coordinator may discuss the complaint with the Superintendent or designee, district legal counsel, or the district's risk manager.

The coordinator shall also determine whether interim measures, such as scheduling changes, transfers, or leaves, need to be taken before the investigation is completed in order to prevent further incidents. The coordinator shall ensure that such interim measures do not constitute retaliation.

3. **Written Report on Findings and Remedial/Corrective Action:** No more than 20 business days after receiving the complaint, the coordinator shall conclude the investigation and prepare a written report of the findings.

This timeline may be extended by the coordinator for good cause. If an extension is needed, the coordinator shall notify the parties and explain the reasons for the extension.

The report shall include the decision and the reasons for the decision and shall summarize the steps taken during the investigation. If a determination has been made that discrimination or harassment occurred, the report shall also include any corrective action(s) that have been or will be taken to address the behavior, provide appropriate options for remedial actions and resolutions for the complainant, and ensure that retaliation or further discrimination or harassment is prevented. The report shall be presented to the Superintendent or designee.

A summary of the findings shall be presented to the complainant and the person accused.

Use of Artificial Intelligence

Artificial Intelligence ("AI") refers to machine learning systems capable of performing complex tasks such as problem-solving, reasoning, understanding natural language, and recognizing patterns in data. AI is

becoming increasingly integrated into various technological applications. The District recognizes that AI can enhance student learning experiences and serve as a valuable resource for staff and teachers.

The District authorizes the ethical and legal use of AI as a tool to support and expand on classroom instruction, increase learning opportunities, and as a general tool for staff and teachers subject to limitations outlined within this agreement and any other applicable Board Policies.

The District has developed the following guidelines and protocols for employee use of AI:

- AI Tool Approval

The Internet

The Internet is an electronic network linking computers and computer USERS all over the world. The Internet provides a variety of technical capabilities, including the World Wide Web, email, newsgroups,

chat rooms, telnet, social networks, and others. Access to the Internet is designed to be a standard feature of every Roseville City School District school/department computer, and the Internet is considered an essential tool for student and staff research projects, peer contact, and academic research. All traffic through the Roseville City School District network is monitored and logged in compliance with the Children's Online Privacy Protection Act ([COPPA](#)) and the Children's Internet Protection Act ([CIPA](#)).

Netiquette

The term "netiquette" refers to appropriate behavior on the Internet. The use of electronic information resources by staff and students must be in support of the goals and objectives of the Roseville City School District and pertain to the employee's job duties.

Users are expected to abide by the generally accepted rules of network etiquette. These include the following:

1. Be polite. Do not get abusive in your messages to others.
2. Use appropriate language. Swearing and the use of vulgarities or any other offensive language are not permitted.
3. Passwords or the personal address or phone numbers of students or colleagues should not be provided to others.
4. Using the network in such a way that you would disrupt the use of the network by other users is strictly forbidden.
5. Accessing or posting material that is profane or obscene (pornography), that advocates or condones the commission of unlawful acts (illegal), or that advocates or condones violence or discrimination are not permitted.

Selling products or services via the system is not permissible. The district will not be responsible for financial obligations arising from the unauthorized use of the system.

Bring Your Own Device (BYOD)

The Roseville City School District recognizes that mobile devices are a valuable tool in education and conducting school and District related business. All RCSD students and staff members may use personally owned mobile and computing devices (laptops, tablets, smartphones, and other wireless devices) on the BYOD wireless network for educational and District business use.

Technology Services' policy is to protect and maintain the safety, security, and integrity of our systems while using these tools. Internet content used through the District's BYOD wireless network is filtered for appropriate content as other District networks and stipulated in Board policy.

Support Services and Disclaimers

1. Technology Services will only provide support related to accessing the District wireless network.
2. Technology Services will not support or repair personal devices.
3. Never connect personal (BYOD) devices directly to the district LAN or wired network; all personal devices must only access the district's designated wireless network.

4. RCSD assumes no responsibility and shall not be liable for any loss of data, damage, or viruses/malware that may infect your device on account of your access to or use of the District's and or public wireless network.
5. RCSD assumes no responsibility or liability for physical damage to or theft of your device.
6. RCSD cannot guarantee that staff hardware or software will work with the District's wireless network

Liability

The district will make reasonable efforts to protect employees from improper or harmful matters which may be available on the Internet through the firewall and content filtering. A "content filter" is the use of a program to screen and exclude from access or availability web pages or e-mail that is deemed objectionable. However, no filtering system is 100% accurate, and some information available may be considered inappropriate for the workplace. In signing this agreement, the employee recognizes that the district can make no guarantees preventing improper access to such materials and acknowledges Roseville City School District does not condone the use of such materials.

System failures may result in the loss of data services. These losses could involve loss of data, interruption of services, or reliance on the accuracy of information maintained on the district system or access through the system. Roseville City School District disclaims responsibility for these and all losses due to system failure or human error. Employees are advised to make backups of all important personal data in the district system.

Privacy

Since the use of district technology is intended for use in conducting district business, no employee should have any expectation of privacy in any use of district technology.

The district reserves the right to monitor and record all use of district technology, including, but not limited to, access to the Internet or social media, Internet searches, browsing history, use of artificial intelligence, communications sent or received from district technology, or other uses within the jurisdiction of the district. Such monitoring/recording may occur at any time without prior notice for any legal purposes, including, but not limited to, record retention and distribution and/or investigation of improper, illegal, or prohibited activity. Employees should be aware that, in most instances, their use of district technology (such as web searches or emails) cannot be erased or deleted.

All passwords created for or used on any district technology are the sole property of the district. The creation or use of a password by an employee on district technology does not create a reasonable expectation of privacy.

If an employee uses a personally owned device to access district technology or conduct district business, the employee shall abide by all applicable board policies, administrative regulations, and this Agreement. Any such use of a personally owned device may subject the contents of the device and any communications sent or received on the device to disclosure pursuant to a lawful subpoena or public records request.

Email

Electronic mail (“E-Mail”) is an electronic message sent by or to a user in correspondence with another person having Internet or Local Area Network mail access. It is important not to consider electronic communications to be either private or secure. All users have some degree of privacy in their e-mail. However, if a user is believed to be in violation of the guidelines stated in this policy, a system administrator or other authorized personnel may need to gain access to private correspondence or files. Staff members are provided with a Roseville City School District email account and may use other e-mail servers via the Roseville City Elementary School District network. Non-school-related use of the network and email will be permitted before school, lunch, and after school work hours as long as it does not interfere with the employee’s work responsibilities or the network system or is not in violation of the guidelines stated in this policy. It is important to have users remove messages from their Inboxes, Deleted Items, and Sent Items a minimum of twice per school year.

Digital Accessibility

The Roseville City School District is committed to diversity, inclusion, and accessibility in everything we do. These core values are fundamental to how we do business and come through the experiences we design for our students, parents, and community members. Publications must meet a variety of standards related to accessibility, adequacy of research, spelling, and grammar, and appropriateness of material. Posted material must relate specifically to school organization activities, programs, and or school and career preparation activities.

Copyright Infringement and Illegal File Sharing

The Roseville City School District recognizes that district staff and students may use a variety of copyrighted materials in the educational program and other district operations. When the District has not purchased such materials for the intended use, the Board expects staff and students to respect the protections afforded by federal law to the copyright owners of those materials and respect any limitations by the copyright holder to the license of such materials.

Any literary, musical, dramatic, choreographic, pictorial, graphic, sculptural, audiovisual or motion picture, sound, architectural, or other original work shall be assumed to be a copyrighted work, regardless of whether the work appears in print, audio, video, electronic, or other fixed and tangible forms.

Before reproducing copyrighted material for instructional or other district purposes, a staff member shall determine if the material is in the public domain or if the intended use of the material meets the criteria for fair use or another exception pursuant to 17 USC [107-122](#). If the material is not in the public domain or no recognized exception applies, the staff member shall seek permission from the copyright holder before using the material.

If a staff member is uncertain as to whether the intended use of the material meets the criteria for fair use or another exception, he/she shall take the safest course and seek permission from the copyright holder to use the material or, if it is impracticable to obtain permission, shall contact Technology Services for clarification and assistance

Social Media

The Roseville City School District Governing Board recognizes legitimate business reasons for using social media at work or district technology resources to access social media. To enable employees to take advantage of these sites' business value and promote an open, trusting, collaborative workplace, Roseville City School District policy allows employees to use social media within the guidelines specified below.

1. **What is Social Media?** Social media includes any website where visitors can publish content to a larger group. Content shared may include (but is not limited to) personal information, opinions, research, commentary, video, pictures, or business information. Examples of such destinations include large branded entities such as Facebook, Twitter, YouTube, Instagram, and LinkedIn. However, blogs, special interest forums, and user communities are also considered social media.
2. **Corporate Social Media Content:** Posting content to corporate-sponsored social media (e.g., the corporate Facebook page) is permitted only for administrators authorized to represent the District publicly.
3. **Inappropriate Content Policy:** While social media contains legitimate business and personal content, they also include content that is inappropriate for the workplace, including nudity, violence, abused drugs, sex, and gambling. Therefore, the same inappropriate content policy that applies to the broader Web also applies to content found within social media. Inappropriate content should not be accessed by employees while at work or while using District technology resources. In addition to these guidelines, employees should use common sense and consideration for others in deciding which content is appropriate for the workplace.
4. **Content Publishing and Confidentiality Policy:** The following are policy guidelines regarding what you should and should not do when publishing content on social media. These guidelines apply to all social media communications, whether personal or District related. Employees are responsible for the content they publish on social media and can be held personally liable for content published. Employees also can be subject to disciplinary action by Roseville City School District for publishing inappropriate or confidential content. These guidelines only cover a sample of all possible content publishing scenarios and are not a substitute for good judgment.
 - a. Employees **SHOULD** know and follow all privacy and confidentiality guidelines in the RCSD Employee Handbook. All guidelines in the employee handbook and laws such as copyright, fair use, and financial disclosure laws apply to social media.
 - b. Employees **SHOULD** speak in the first person when engaging in personal social media communications. Make it clear that you are speaking for yourself and not on behalf of the Roseville City School District.
 - c. Employees **SHOULD** be conscious of their association with RCSD when using social media– If you identify yourself as an RCSD employee, ensure your profile and related content are consistent with how you wish to present yourself with colleagues, parents, and students.

- d. Employees **SHOULD** use their best judgment – Remember that there are always consequences to what you publish. If you're about to publish something that makes you even the slightest bit uncomfortable, review the suggestions above and think about why that is. If you're still unsure, and it is related to RCSD, feel free to discuss it with an administrator, or simply do not publish it. You have sole responsibility for what you post to your blog or publish on any form of social media.
- e. Employees **SHOULD NOT** disclose or use RCSD confidential or proprietary information or that of any other person or company. For example, ask permission before posting someone's picture on a social network or publishing in a blog a conversation that was meant to be private.
- f. Employees **SHOULD NOT** cite or reference students, staff, partners, or suppliers without their written approval.
- g. Employees **SHOULD NOT** utilize social media for any illegal activity, including hacking, cyberbullying, plagiarism (or intellectual property law violations), and or copyright infringement.
- h. Employees **SHOULD NOT** use ethnic slurs, personal insults, obscenity, or engage in any conduct that would not be acceptable in the RCSD workplace. Employees should show proper consideration for other's privacy and for topics that may be considered objectionable or inflammatory.
- i. Employees **SHOULD NOT** conduct confidential business through your personal or other social media pages.

For security, compliance, and maintenance purposes, authorized personnel may monitor and audit equipment, systems, and network traffic.

Records

Any electronically stored information generated or received by an employee which constitutes a district or student record shall be classified, retained, and destroyed in accordance with Board Policy/Administrative Regulation 3580 - District Records, Board Policy/Administrative Regulation 5125 - Student Records, or other applicable policies and regulations addressing the retention of district or student records.

Reporting

If an employee becomes aware of any security problem (including, but not limited to, a cyberattack, phishing, or any compromise of the confidentiality of any login or account information) or misuse of district technology, the employee shall immediately report such information to the Superintendent or designee.

5. The mobile device computer is a desktop replacement; therefore, it must be at the worksite during regularly scheduled workdays to take daily attendance and other requirements of the student management system and receive administrative communications and upgrades.
6. The mobile device is issued to the employee for the current teaching/employed position. The computer may be reassigned to other employees if the employee changes roles or schools.
7. The employee may take the mobile device home or to other secure locations after business hours. However, the employee is responsible, at all times, for the care and appropriate use of the mobile device.

Domestic Violence

The Roseville City School District is committed to creating and maintaining a safe work environment free of all forms of harassment and violence, and charges every employee with the responsibility of contributing toward that environment. Domestic violence means intentionally or recklessly causing or attempting to cause injury or harm, or placing any family member, domestic partner, or cohabitant in reasonable fear of injury. Workers who must leave their jobs to protect themselves or their children from domestic violence – “good cause” under the law – are eligible for unemployment benefits. Victims of domestic violence are protected against discharge or discrimination for taking time off to seek protection orders or other judicial relief to help secure their own or their children’s safety or welfare. The employee must give reasonable notice, if feasible. The Roseville City School District may require certification of domestic violence: a police report, protection order, and documentation from court or from a medical professional, domestic violence advocate, or counselor. To the extent the law allows, the Roseville City School District must maintain the employee’s confidentiality. (California Labor Code §230-230.1, as amended by 2000 Cal. Stat. 487) The Roseville City School District declares that violent conduct of any kind will not be condoned or tolerated. Discipline up to and including termination of employment will occur to any employee who threatens or abuses others on work time or using work resources. Employees convicted of a crime as a result of domestic violence may be subject to corrective or disciplinary procedures, up to and including termination, when work performance or normal operation of the workplace is affected.

BP 4119.42 - Exposure Plan for Bloodborne Pathogens

As part of its commitment to provide a safe and healthful work environment, the Board of Education recognizes the importance of developing an exposure control plan. The Superintendent or designee shall establish a written exposure control plan in accordance with state and federal standards for dealing with potentially infectious materials in the workplace to protect employees from possible infection due to contact with bloodborne pathogens, including but not limited to hepatitis B virus, hepatitis C virus and human immunodeficiency virus (HIV).

The Superintendent or designee shall determine which employees have occupational exposure to bloodborne pathogens and other potentially infectious materials. In accordance with the district's exposure control plan, employees having occupational exposure shall be offered the hepatitis B vaccination.

The Superintendent or designee may exempt designated first aid providers from pre-exposure hepatitis B vaccination under the conditions specified by state regulations. (8 CCR 5193(f))

Any employee not identified by the Superintendent or designee as having occupational exposure may submit a request to the Superintendent or designee to be included in the training and hepatitis B vaccination program. The Superintendent or designee may deny a request when there is no reasonable anticipation of contact with any infectious material.

 6. An effective procedure for identifying currently available engineering controls and selecting such controls as appropriate for the procedures performed by employees in their work areas or departments
 7. An effective procedure for documenting instances when a licensed healthcare professional directly involved in a patient's care determines, in the reasonable exercise of clinical judgment, that the use of an engineering control would jeopardize an individual's safety or the success of a medical, dental or nursing procedure involving the individual
 8. An effective procedure for obtaining the active involvement of employees in reviewing and updating the exposure control plan with respect to the procedures performed by employees in their respective work areas or departments

The exposure control plan shall be reviewed and updated at least annually and whenever necessary to: (8 CCR 5193(c))

BP 5141.21 - Administering Medication and Monitoring Health Conditions

Original Adopted Date: 05/04/2017 | Last Revised Date: 10/10/2024 | Last Reviewed Date: 10/10/2024

The Board of Education believes that regular school attendance is critical to student learning and that students who need to take medication prescribed or ordered for them by their authorized health care providers should be able to participate in the educational program.

Any medication prescribed for a student with a disability who is qualified to receive services under the Individuals with Disabilities Education Act or Section 504 of the Rehabilitation Act of 1973 shall be administered in accordance with the student's individualized education program or Section 504 services plan, as applicable.

For the administration of medication to other students during school or school-related activities, the Superintendent or designee shall develop protocols which shall include options for allowing parents/guardians to administer medication to their child at school, designate other individuals to do so on their behalf, and, with the student's authorized health care provider's approval, request the district's permission for the student to self-administer a medication or self-monitor and/or self-test for a medical condition. Such processes shall be implemented in a manner that preserves campus security, minimizes instructional interruptions, and promotes student safety and privacy.

The Superintendent or designee shall make epinephrine auto-injectors available at each school for providing emergency medical aid to any person suffering, or reasonably believed to be suffering, from an anaphylactic reaction. (Education Code 49414)

In accordance with law, the Superintendent or designee may make naloxone hydrochloride or another opioid antagonist and stock albuterol inhalers available at each school for providing emergency medical aid to any person suffering or reasonably believed to be suffering from opioid overdose or respiratory distress. (Education Code 49414.3, 49414.7)

Because of the conflict between state and federal law regarding the legality of medicinal cannabis, the Board prohibits the administration of medicinal cannabis to students on school grounds by parents/guardians or school personnel.

The Superintendent or designee shall collaborate with city and county emergency responders, including local public health administrators, to design procedures or measures for addressing an emergency such as a public disaster or epidemic.

Administration of Medication by School Personnel

When allowed by law, medication prescribed to a student by an authorized health care provider may be administered by a school nurse or, when a school nurse or other medically licensed person is unavailable and the physician has authorized administration of medication by unlicensed personnel for a particular student, by other designated school personnel with appropriate training. School nurses and other designated school personnel shall administer medications to students in accordance with law, Board policy, administrative regulation, and, as applicable, the written statement provided by the student's parent/guardian and authorized health care provider. Such personnel shall be afforded appropriate liability protection.

The Superintendent or designee shall ensure that school personnel designated to administer any medication receive appropriate training and, as necessary, retraining from qualified medical personnel before any medication is administered. At a minimum, the training shall cover how and when such medication should be administered, the recognition of symptoms and treatment, emergency follow-up procedures, and the proper documentation and storage of medication. Such trained, unlicensed designated school personnel shall be supervised by, and provided with immediate communication access to, a school nurse, physician, or other appropriate individual.

The Superintendent or designee shall maintain documentation of the training and ongoing supervision, as well as annual written verification of competency of other designated school personnel.

In addition, any employee who is disabled by pregnancy, childbirth, or other related condition shall be entitled to PDL for the period of the disability not to exceed four months. For a part-time employee, the four months shall be calculated on a proportional basis. (Government Code 12945; 2 CCR 11042)

PDL shall run concurrently with FMLA leave for disability caused by an employee's pregnancy. At the end of the employee's FMLA leave for disability caused by pregnancy, or at the end of four months of PDL, whichever occurs first, a CFRA-eligible employee may request to take CFRA leave of up to 12 work weeks, for the reason of the birth of a child or to bond with or care for the child. (Government Code 12945, 12945.2; 2 CCR 11046, 11093)

Leave taken for the birth or placement of a child must be concluded within the 12-month period beginning on the date of the birth or placement of the child. Such leave does not need to be taken in one continuous period of time. (2 CCR 11090; 29 USC 2612)

Each eligible employee shall be granted up to 12 work weeks for family care and medical leave related to the birth or placement of a child regardless of whether both parents of the child work for the district.

Use/Substitution of Paid Leave

During any otherwise unpaid period of FMLA or CFRA leave, except leave for an employee's own serious health condition, an employee shall use accrued paid leave, including but not limited to, vacation leave, personal leave, or family leave. If the leave is for the employee's own serious health condition, the employee shall use accrued paid leave, including but not limited to, vacation leave, personal leave, or sick leave. During an unpaid period of PDL, the employee shall use any accrued sick leave and may elect to use any vacation time or other accrued personal time off. (Government Code 12945, 12945.2; 2 CCR 11044; 11092; 29 USC 2612)

The district and employee may also come to agreement regarding the use of any additional paid or unpaid time off instead of using the employee's CFRA leave. (2 CCR 11092)

Intermittent Leave/Reduced Work or Leave Schedule

PDL and family care and medical leave for the serious health condition of an employee or eligible family member may be taken intermittently or on a reduced work or leave schedule when medically necessary, as determined by the health care provider of the person with the serious health condition. However, the district shall limit leave increments to the shortest period of time that the district's payroll system uses to account for absences or use of leave provided it is not to be greater than one hour. (Government Code 12945.2; 2 CCR 11042, 11090; 29 USC 2612)

The basic minimum duration of leave for the birth, adoption, or foster care placement of a child shall be two weeks. However, the district shall grant a request for such leave of less than two weeks on any two occasions. (2 CCR 11090; 29 USC 2612)

The district may require an employee to transfer temporarily to an available alternative position under any of the following circumstances: (2 CCR 11041, 11090; 29 USC 2612)

1. The employee needs intermittent leave or leave on a reduced work schedule that is foreseeable based on a planned medical treatment for the employee or family member.
2. A medical certification is provided by the employee's health care provider that, because of pregnancy, the employee has a medical need to take intermittent leave or leave on a reduced work schedule.
3. The district agrees to permit intermittent leave or leave on a reduced work schedule due to the birth, adoption, or foster care placement of the employee's child.

The alternative position must have equivalent pay and benefits and must better accommodate recurring periods of leave than the employee's regular job, and the employee must be qualified for the position. Transfer to an alternative position may include altering an existing job to better accommodate the employee's need for intermittent leave or a reduced work or leave schedule. (2 CCR 11041, 11090; 29 USC 2612)

Request for Leave

The district shall consider an employee's request for PDL or family care and medical leave only if the employee provides at least verbal notice sufficient to make the district aware of the need to take the leave and the anticipated timing and duration of the leave. (2 CCR 11050, 11091)

For family care and medical leave, the employee need not expressly assert or mention FMLA/CFRA to satisfy this requirement. However, the employee must state the reason the leave is needed (e.g., birth of child, medical treatment). If more information is necessary to determine whether the employee is eligible for family care and medical leave, the Superintendent or designee shall inquire further and obtain the necessary details of the leave to be taken. (2 CCR 11091)

The district shall respond to requests for leave as soon as practicable, but no later than five business days after receiving the employee's request. (2 CCR 11091)

Based on the information provided by the employee, the Superintendent or designee shall designate the leave, paid or unpaid, as FMLA/CFRA qualifying leave and shall give notice of such designation to the employee. Failure of an employee to respond to permissible inquiries regarding the leave request may result in denial of CFRA protection if the district is unable to determine whether the leave is CFRA qualifying. (2 CCR 11091; 29 CFR 825.300)

When an employee is able to foresee the need for PDL or family care and medical leave at least 30 days in advance of the leave, the employee shall provide the district with at least 30 days advance notice before the leave. When the 30 days' notice is not practicable because of a lack of knowledge of when leave will be required to begin, a change in circumstances, a medical emergency, or other good cause, the employee shall provide the district with notice as soon as practicable. Failure of an employee to provide required notice may result in a denial of leave. (2 CCR 11050, 11091)

In all instances, the employee shall consult with the Superintendent or designee and make a reasonable effort to schedule, subject to the health care provider's approval, any planned appointment or medical treatment or supervision so as to minimize disruption to district operations. (Government Code 12945.2; 2 CCR 11050, 11091)

An eligible employee may request CFRA leave to care for a designated person with a serious health condition. The employee may identify the designated person at the time of the employee's request for leave. The district may limit an employee to using CFRA leave to care for one designated person per 12-month period. (Government Code 12945.2; Labor Code 245.5)

Certification of Health Condition

Within five business days of an employee's request for family care and medical leave for the serious health condition of the employee or an eligible family member, the Superintendent or designee shall request that the employee provide certification by a health care provider of the need for leave.

Upon receiving the district's request, the employee shall provide the certification within 15 calendar days, unless either the Superintendent or designee provides additional time or it is not practicable under the particular circumstances, despite the employee's diligent, good faith efforts. (2 CCR 11087, 11091; 29 CFR 825.305)

The certification shall include the following: (Government Code 12945.2; 2 CCR 11087; 29 USC 2613)

1. The date on which the serious health condition began
2. The probable duration of the condition
3. If the employee is requesting leave to care for an eligible family member with a serious health condition, both of the following:
 - a. Statement that the serious health condition warrants the participation of the employee to provide care, such as by providing psychological comfort, arranging for third party care, or directly providing or participating in the medical care of the eligible family member during a period of the treatment or supervision
 - b. Estimated amount of time the health care provider believes the employee needs to care for the eligible family member
4. If the employee is requesting leave because of the employee's own serious health condition, a statement that due to the serious health condition, the employee is unable to work at all or is unable to perform one or more essential job functions of the position
5. If the employee is requesting leave for intermittent treatment or on a reduced work or leave schedule for planned medical treatment, a statement of the medical necessity for the leave, the dates on which treatment is expected to be given, the duration of such treatment, and the expected duration of the leave

The Superintendent or designee shall not request any genetic information related to an employee except as authorized by law in accordance with the California Genetic Information Nondiscrimination Act of 2011. (Government Code 12940)

When an employee has provided sufficient medical certification to enable the district to determine whether the employee's leave request is FMLA/CFRA-eligible, the Superintendent or designee shall notify the employee within five business days whether the leave is FMLA/CFRA-eligible. The Superintendent or designee may also retroactively designate leave as FMLA/CFRA leave as long as appropriate notice is given to the employee and there is no harm or injury to the employee. (2 CCR 11091; 29 CFR 825.301)

If the Superintendent or designee has a good faith objective reason to doubt the validity of a certification that accompanies a request for leave for the employee's own serious health condition, the Superintendent or designee may require the employee to obtain a second opinion from a district-approved health care provider, at district expense.

If the second opinion is contrary to the first, the Superintendent or designee may require the employee to obtain a third medical opinion from a third health care provider approved by both the employee and the district, again at district expense. The opinion of the third health care provider shall be final and binding. (Government Code 12945.2; 2 CCR 11091; 29 USC 2613)

Certification for PDL

The Superintendent or designee shall request that an employee who is requesting PDL provide certification by a health care provider of the need for leave at the time the employee gives notice of the need for PDL, or within two business days of giving the notice. If the need for PDL is unforeseen, the Superintendent or designee shall request the medical certification within two business days after the leave commences. The Superintendent or designee may request certification at some later date if the Superintendent or designee has reason to question the appropriateness of the leave or its duration. (2 CCR 11050)

For PDL that is foreseeable and for which at least 30 days' notice has been given, the employee shall provide the medical certification before the leave begins. When this is not practicable, the employee shall provide the certification within the time frame specified by the Superintendent or designee which must be at least 15 calendar days after the request, unless it is not practicable under the particular circumstances despite the employee's diligent, good faith efforts. (2 CCR 11050)

Medical certification for PDL purposes shall include a statement that the employee needs to take the leave because the employee is disabled by pregnancy, childbirth, or a related medical condition, the date on which the employee became disabled because of pregnancy, and the estimated duration of the leave. (2 CCR 11050)

If additional PDL or family care and medical leave is needed when the time estimated by the health care provider expires, the district may require the employee to provide recertification in the manner specified for the leave. (Government Code 12945.2; 2 CCR 11050; 29 USC 2613)

Release to Return to Work

Upon expiration of an employee's PDL or family care and medical leave taken for the employee's own serious health condition, the employee shall present certification from the health care provider of the employee's ability to resume work. The certification shall address the employee's ability to perform the essential job functions of the position.

Rights to Reinstatement

Upon granting an employee's request for PDL or FMLA/CFRA leave, the Superintendent or designee shall guarantee to reinstate the employee in the same or a comparable position when the leave ends. (Government Code 12945.2; 2 CCR 11043, 11089; 29 USC 2614)

The district may refuse to reinstate an employee to the same or a comparable position if the FMLA/CFRA leave was fraudulently obtained by the employee. (2 CCR 11089; 29 CFR 825.216)

The district may refuse to reinstate an employee to the same position after taking PDL if, at the time the reinstatement is requested, the employee would not otherwise have been employed in that position for legitimate business reasons unrelated to the employee's PDL. (2 CCR 11043)

Maintenance of Benefits/Failure to Return from Leave

During the period when an employee is on PDL or family care and medical leave, the employee shall maintain employee status with the district and the leave shall not constitute a break in service for purposes of longevity, seniority under any collective bargaining agreement, or any employee benefit plan. (Government Code 12945.2; 2 CCR 11092; 29 USC 2614)

For up to a maximum of four months for PDL and 12 work weeks for other family care and medical leave, the district shall continue to provide an eligible employee the group health plan coverage that was in place before the employee took the leave. The employee shall reimburse the district for premiums paid during the leave if the employee fails to return to district employment after the expiration of all available leaves and the failure is for a reason other than the continuation, recurrence, or onset of a serious health condition or other circumstances beyond the employee's control. (Government Code 12945.2; 2 CCR 11044, 11092; 29 USC 2614; 29 CFR 825.213)

In addition, during the period when an employee is on PDL or family care and medical leave, the employee shall be entitled to continue to participate in other employee benefit plans including life insurance, short-term or long-term disability insurance, accident insurance, pension and retirement plans, and supplemental unemployment benefit plans to the same extent and under the same conditions as would apply to an unpaid leave taken for any other purpose. However, for purposes of pension and retirement plans, the district shall not make plan payments for an employee during any unpaid portion of the leave period and the leave period shall not be counted for purposes of time accrued under the plan. (Government Code 12945.2; 2 CCR 11044, 11092)

Military Family Leave Resulting from Qualifying Exigencies

An eligible employee may take up to 12 work weeks of unpaid FMLA/CFRA leave, during each 12-month period established by the district in the section entitled "Terms of Leave" above, for one or more qualifying exigencies while the employee's child, parent, spouse, or, for purposes of CFRA leave, registered domestic partner, who is a military member is on covered active duty or on call to covered active duty status. (Government Code 12945.2; 29 USC 2612; 29 CFR 825.126)

Covered active duty means, for members of the Regular Armed Forces, duty during the deployment of a member of the regular Armed Forces to a foreign country or, for members of the Reserve components of

the Armed Forces, duty during the deployment of a member of the National Guard or Reserves to a foreign country under a call or an order to active duty in support of a contingency operation pursuant to law. Deployment to a foreign country includes deployment to international waters. (29 USC 2611; 29 CFR 825.126)

3. Arrange child care or attend school activities arising from the covered active duty or call to covered active duty, such as arranging for alternative child care, enrolling or transferring a child to a new school, or attending meetings
4. Make or update financial and legal arrangements to address a military member's absence
5. Attend counseling provided by someone other than a health care provider
6. Spend time (up to 15 calendar days of leave per instance) with a military member who is on short-term, temporary, rest and recuperation leave during deployment
7. Attend to certain post-deployment activities, such as arrival ceremonies or reintegration briefings
8. Care for a military member's parent who is incapable of self-care when the care is necessitated by the military member's covered active duty
9. Address any other event that the employee and district agree is a qualifying exigency

The employee shall provide the Superintendent or designee with notice of the need for the qualifying exigency leave as soon as practicable, regardless of how far in advance such leave is foreseeable. (29 CFR 825.302)

An employee who is requesting leave for qualifying exigencies shall provide the Superintendent or designee with a copy of the military member's active duty orders, or other documentation issued by the military, and the dates of the service. In addition, the employee shall provide the Superintendent or designee with certification of the qualifying exigency necessitating the leave. The certification shall contain the information specified in 29 CFR 825.309.

The employee's qualifying exigency leave may be taken on an intermittent or reduced work or leave schedule basis. (29 CFR 825.302)

During the period of qualified exigency leave, the district's rule regarding an employee's use of accrued vacation leave and any other accrued paid or unpaid time off, as specified in the section "Use/Substitution of Paid Leave" above, shall apply.

Military Caregiver Leave

The district shall grant an eligible employee up to a total of 26 work weeks of leave during a single 12-month period, measured forward from the first date the leave is taken, to care for a covered servicemember with a serious illness or injury. In order to be eligible for such military caregiver leave, the employee must be the spouse, child, parent, or next of kin of the covered servicemember. This 26-week period is inclusive of the 12 work weeks of leave that may be taken for other FMLA qualifying reasons. (29 USC 2611, 2612; 29 CFR 825.127)

Covered servicemember may be: (29 CFR 825.127)

2. For a veteran, an injury or illness incurred or aggravated by the member's service in the line of duty on active duty in the Armed Forces, including the National Guard or Reserves, that manifested itself before or after the member became a veteran and that is at least one of the following:

The leave may be taken intermittently or on a reduced work or leave schedule when medically necessary. An employee taking military caregiver leave in combination with other family care and medical leaves pursuant to this administrative regulation shall be entitled to a combined total of 26 work weeks of leave during a single 12-month period. Notifications

The Superintendent or designee shall provide the following notifications regarding state and federal law related to PDL or FMLA/CFRA leave:

1. General Notice: Information explaining the provisions of the Fair Employment and Housing Act/PDL and FMLA/CFRA and employees' rights and obligations shall be posted in a conspicuous place on district premises, or electronically, and shall be included in employee handbooks. (2 CCR 11091; 29 CFR 825.300)

If the amount of leave needed is known, the notice shall include the number of hours, days, or weeks that will be counted against the employee's FMLA/CFRA entitlement.

If it is not possible to provide that number at the time of the designation notice, notification shall be provided of the amount of leave counted against the employee's entitlement upon request by the employee and at least once in every 30-day period if leave was taken in that period. (29 CFR 825.300)

3. An injury resulting from the exercise by a teacher, vice principal, principal, or other certificated employee of the same degree of physical control over a student that a parent/guardian would be legally privileged to exercise, not exceeding the amount of physical control reasonably necessary to maintain order, protect property, protect the health and safety of students, or maintain proper and appropriate conditions conducive to learning (Education Code 44807)
4. An injury caused by a school employee's use of force that is reasonable and necessary to quell a disturbance threatening physical injury to persons or damage to property, for

purposes of self-defense, or to obtain weapons or other dangerous objects within the control of a student (Education Code 49001)

5. Physical pain or discomfort caused by athletic competition or other such recreational activity voluntarily engaged in by a student (Education Code 49001)

Additionally, general neglect does not include: (Penal Code 11165.2)

1. A parent/guardian's economic disadvantage

2. A child receiving treatment by spiritual means pursuant to Welfare and Institutions code 16509.1, or not receiving specified medical treatment for religious reasons

Mandated reporters include, but are not limited to, teachers; instructional aides; teacher's aides or assistants; classified employees; certificated pupil personnel employees; administrative officers or supervisors of child attendance; athletic coaches, administrators, and directors; licensees, administrators, and employees of a licensed child day care facility; Head Start program teachers; district police or security officers; licensed nurses or health care providers; and administrators, presenters, and counselors of a child abuse prevention program. (Penal Code 11165.7)

Reasonable suspicion means that it is objectively reasonable for a person to entertain a suspicion, based upon facts that could cause a reasonable person in a like position, drawing when appropriate on the person's training and experience, to suspect child abuse or neglect. However, reasonable suspicion does not require certainty that child abuse or neglect has occurred nor does it require a specific medical indication of child abuse or neglect. (Penal Code 11166)

Reportable Offenses

Using the procedures provided below, a mandated reporter shall make a report whenever the mandated reporter, while acting in a professional capacity or within the scope of employment, has knowledge of or observes a child whom the mandated reporter knows or reasonably suspects has been the victim of child abuse or neglect. (Penal Code 11166)

Any mandated reporter who has knowledge of or who reasonably suspects that a child is suffering serious emotional damage or is at a substantial risk of suffering serious emotional damage, based on evidence of severe anxiety, depression, withdrawal, or

untoward aggressive behavior toward self or others, may make a report to the appropriate agency. (Penal Code 11165.9, 11166.05, 11167)

Any district employee who reasonably believes to have observed the commission of a murder, rape, or lewd or lascivious act by use of force, violence, duress, menace, or fear of immediate and unlawful bodily injury against a victim who is a child under 14 years of age shall notify a peace officer. (Penal Code 152.3)

The fact that a child is experiencing homelessness or is classified as an unaccompanied minor, as defined in the federal McKinney-Vento Homeless Assistance Act (42 USC 11434a), is not, in and of itself, a sufficient basis for reporting child abuse or neglect. (Penal Code 11165.15)

Responsibility for Reporting

The reporting duties of mandated reporters are individual and cannot be delegated to another person. (Penal Code 11166)

When two or more mandated reporters jointly have knowledge of a known or suspected instance of child abuse or neglect, the report may be made by a member of the team selected by mutual agreement and a single report may be made and signed by the selected member of the reporting team. Any member who has knowledge that the member designated to report has failed to do so shall thereafter make the report. (Penal Code 11166)

No supervisor or administrator shall impede or inhibit a mandated reporter from making a report. (Penal Code 11166)

Any person not identified as a mandated reporter who has knowledge of or observes a child whom the person knows or reasonably suspects has been a victim of child abuse or neglect may report the known or suspected instance of child abuse or neglect to the appropriate agency. (Penal Code 11166)

Reporting Procedures

1. Initial Telephone Report

Immediately or as soon as practicable after knowing or observing suspected child abuse or neglect, a mandated reporter shall make an initial report by telephone to any police department (excluding a school district police/security department), sheriff's

department, county probation department if designated by the county to receive such reports, or county welfare department. (Penal Code 11165.9, 11166)

Such reports shall be made to the following agency(ies):

Placer County Children's System of Care
11716 Enterprise Drive
Auburn, CA 95603
(916) 872-6549

When the initial telephone report is made, the mandated reporter shall note the name of the official contacted, the date and time contacted, and any instructions or advice received.

2. Written Report

Within 36 hours of knowing or observing the information concerning the incident, the mandated reporter shall prepare and either send, fax, or electronically transmit to the appropriate agency a written follow-up report, which includes a completed California Department of Justice (DOJ) form (BCIA 8572). (Penal Code 11166, 11168)

The DOJ form may be obtained from the district office or other appropriate agencies, such as the police department, sheriff's department, or county probation or welfare department.

Reports of suspected child abuse or neglect shall include, if known: (Penal Code 11167)

- a. The name, business address, and telephone number of the person making the report and the capacity that makes the person a mandated reporter
- b. The child's name and address, present location, and, where applicable, school, grade, and class
- c. The names, addresses, and telephone numbers of the child's parents/guardians
- d. The name, address, telephone number, and other relevant personal information about the person who might have abused or neglected the child
- e. The information that gave rise to the reasonable suspicion of child abuse or neglect and the source(s) of that information

The mandated reporter shall make a report even if some of this information is not known or is uncertain to the mandated reporter. (Penal Code 11167)

The mandated reporter may give to an investigator from an agency investigating the case, including a licensing agency, any information relevant to an incident of child abuse or neglect or to a report made for serious emotional damage pursuant to Penal Code 11166.05. (Penal Code 11167)

3. Internal Reporting

The mandated reporter shall not be required to disclose the mandated reporter's identity to a supervisor, the principal, or the Superintendent or designee. (Penal Code 11166)

However, employees reporting child abuse or neglect to an appropriate agency are encouraged, but not required, to notify the principal as soon as possible after the initial telephone report to the appropriate agency. When so notified, the principal shall inform the Superintendent or designee.

The principal so notified shall provide the mandated reporter with any assistance necessary to ensure that reporting procedures are carried out in accordance with law, Board policy, and administrative regulation. At the mandated reporter's request, the principal may assist in completing and filing the necessary forms.

Reporting the information to an employer, supervisor, principal, school counselor, co-worker, or other person shall not be a substitute for making a mandated report to the appropriate agency. (Penal Code 11166)

Training

Within the first six weeks of each school year, or within the first six weeks of employment if hired during the school year, the Superintendent or designee shall provide training on mandated reporting requirements to district employees and persons working on their behalf who are mandated reporters. (Education Code 44691; Penal Code 11165.7)

The Superintendent or designee shall use the online training module provided by the California Department of Social Services (CDSS). (Education Code 44691)

The training shall include, but not necessarily be limited to, training in identification and reporting of child abuse and neglect. Additionally, the training shall include information

that failure to report an incident of known or reasonably suspected child abuse or neglect as required by law is a misdemeanor punishable by imprisonment and/or a fine as specified. (Education Code 44691; Penal Code 11165.7)

In addition, the Superintendent or designee shall provide annual training on the prevention of abuse, including sexual abuse, of children on district property, by district staff, or in district-sponsored programs. (Education Code 44691)

The Superintendent or designee shall obtain and retain proof of each mandated reporter's completion of the training. (Education Code 44691)

Victim Interviews by Social Services

Whenever the CDSS or another government agency is investigating suspected child abuse or neglect that occurred within the child's home or out-of-home care facility, the student may be interviewed by an agency representative during school hours, on school premises. The Superintendent or designee shall give the student the choice of being interviewed in private or in the presence of any adult school employee or volunteer aide selected by the student. (Penal Code 11174.3)

A staff member or volunteer aide selected by a child may decline to be present at the interview. If the selected person accepts, the principal or designee shall inform the person of the following requirements prior to the interview: (Penal Code 11174.3)

1. The purpose of the selected person's presence at the interview is to lend support to the child and enable the child to be as comfortable as possible.
2. The selected person shall not participate in the interview.
3. The selected person shall not discuss the facts or circumstances of the case with the child.
4. The selected person is subject to the confidentiality requirements of the Child Abuse and Neglect Reporting Act, a violation of which is punishable as specified in Penal Code 11167.5.

If a staff member agrees to be present, the interview shall be held at a time during school hours when it does not involve an expense to the school. (Penal Code 11174.3)

Release of Child to Peace Officer

When a child is released to a peace officer and taken into custody as a victim of suspected child abuse or neglect, the Superintendent or designee and/or principal shall not notify the parent/guardian, but rather shall provide the peace officer with the address and telephone number of the child's parent/guardian. (Education Code 48906)

Parent/Guardian Complaints

Upon request, the Superintendent or designee shall provide parents/guardians with procedures for reporting suspected child abuse occurring on district property to appropriate agencies. For parents/guardians whose primary language is not English, such procedures shall be in their primary language and, when communicating orally regarding those guidelines and/or procedures, an interpreter shall be provided.

To file a complaint against a district employee or other person suspected of child abuse or neglect on district property, parents/guardians may file a report by telephone, in person, or in writing with any appropriate agency identified above under "Reporting Procedures." If a parent/guardian makes a complaint about an employee to any other employee, the employee receiving the information shall notify the parent/guardian of procedures for filing a complaint with the appropriate agency. The employee shall also file a report when obligated to do so pursuant to Penal Code 11166 using the procedures described above for mandated reporters.

In addition, if the child is enrolled in special education, a separate complaint may be filed with the California Department of Education pursuant to 5 CCR 3200-3205.

Notifications

The Superintendent or designee shall provide to all new employees who are mandated reporters a statement that informs them of their status as mandated reporters, their reporting obligations under Penal Code 11166, and their confidentiality rights under Penal Code 11167. Additionally, the district shall provide these new employees with a copy of Penal Code 11165.7, 11166, and 11167. (Penal Code 11165.7, 11166.5)

Before beginning employment, any person who will be a mandated reporter by virtue of the person's position shall sign a statement indicating knowledge of the reporting obligations under Penal Code 11166 and compliance with such provisions. The signed statement shall be retained by the Superintendent or designee. (Penal Code 11166.5)

Employees who work with dependent adults shall be notified of legal responsibilities and reporting procedures pursuant to Welfare and Institutions Code 15630-15637.

The Superintendent or designee also shall notify all employees that:

1. A mandated reporter who reports a known or suspected instance of child abuse or neglect shall not be held civilly or criminally liable for making a report and this immunity shall apply even if the mandated reporter acquired the knowledge or reasonable suspicion of child abuse or neglect outside of the mandated reporter's professional capacity or outside the scope of employment. (Penal Code 11172)

Any other person making a report shall not incur civil or criminal liability unless it can be proven that the person knowingly made a false report or made a report with reckless disregard of the truth or falsity of the report. (Penal Code 11172)

2. If a mandated reporter fails to timely report an incident of known or reasonably suspected child abuse or neglect, the mandated reporter may be guilty of a crime punishable by a fine and/or imprisonment. (Penal Code 11166)

No employee shall be subject to any sanction by the district for making a report unless it can be shown that the employee knowingly made a false report or made a report with reckless disregard of the truth or falsity of the report. (Penal Code 11166, 11172)

Guidelines for Appropriate Touching of Students

Evaluate

Think about how you touch students. Use common sense in deciding what practices you want to continue and those you may want to change. Talk with your colleagues to help clarify your comfort level with boundary issues. Consider how your behavior appears to others. Remember, everyone may not realize your good intentions.

Appropriate Touch

Problems develop because of inappropriate touching. This does not mean we should not touch children. Children who do not receive appropriate touches are even more vulnerable to exploitation. Children need hugs, but hugs should come from their needs — not yours. Model appropriate touch with colleagues and students. Be more conscious of how and why you touch students. Give options. (“Would you like a handshake or a hug?”) Some children may not want to be touched at all. Respect that. All touching of students should be respectful and consistent.

Talk

Establishing appropriate boundaries is the key to prevention. Talk to your students about touch. Have clear ground rules for touching. Cultural influences, beliefs, and personal history all affect a student’s comfort level. Encourage students to let you know if they are concerned about the way you or someone else touches them. Listen carefully and take any needed action right away.

Extracurricular Activities

When you are planning to take students on a field trip or other activity outside the school, keep the following guidelines in mind:

- Let your administrator know where you’re going.
- Get parent permission.
- Take more than one student.
- Take more than one adult.

Student Interactions

- When alone with a student, leave the door open.
- Let another adult know when you will be meeting alone with a student.
- Don’t spend the majority of your time with one student or small group of students.
- Keep your personal life separate from your interactions with students.

Student Supervision

All staff members are responsible for supervising students before, during and after school. Staff shall hold students accountable for their conduct both inside and outside school buildings remaining alert to dangerous conditions and unsafe student actions. Any dangerous conditions or unsafe student actions should be addressed immediately. Staff members shall not leave students in building/classrooms unsupervised at any time. (AR 5142, Education Code 44807)

BP 3514 - Environmental Safety

The Board of Education recognizes its obligation to provide a safe and healthy environment at school facilities for students, staff, and community members. The Superintendent or designee shall regularly assess school facilities to identify environmental health risks and shall develop strategies to prevent and/or mitigate environmental hazards. He/she shall consider the proven effectiveness of various options, anticipated short-term and long-term costs and/or savings to the district, and the potential impact on staff and students, including the impact on student achievement and attendance.

Policy ROSEVILLE CITY SCHOOL DISTRICT

adopted: June 18, 2018 Roseville, California

AR 3514 - Environmental Safety

The Superintendent may designate and train one or more employees to oversee and coordinate the district's environmental safety program(s). The responsibilities of the coordinator(s) shall include, but are not limited to, overseeing assessments of district facilities, recommending strategies for the prevention and mitigation of environmental health risks, ensuring effective implementation of environmental safety strategies, and reporting to the Superintendent regarding the district's progress in addressing environmental safety concerns.

(cf. [5142](#) - Safety)

(cf. [7111](#) - Evaluating Existing Buildings)

(cf. [7150](#) - Site Selection and Development)

Indoor Air Quality

In order to provide proper ventilation, humidity, and temperature in school facilities and to reduce indoor air contaminants, the following strategies shall be implemented:

1. Mechanically driven heating, ventilation, and air conditioning systems shall be operated continuously during working hours except under the circumstances specified in 8 CCR [5142](#). The systems shall be inspected at least annually and problems corrected within a reasonable time. Where the air supply is filtered, the filters shall be replaced or cleaned regularly to prevent significant reductions in airflow. Documentation of inspections, tests of ventilation rates, and maintenance shall be retained for at least five years. (8 CCR [5142-5143](#))

(cf. [3580](#) - District Records)

Staff shall ensure that airflow is not obstructed by the blocking of ventilators with posters, furniture, books, or other obstacles.

2. School facilities shall be regularly inspected for water damage, spills, leaks in plumbing and roofs, poor drainage, and improper ventilation so as to preclude the buildup of mold and mildew and prevent accidents due to unsafe conditions. Wet building materials and furnishings shall be dried within 48 hours

if possible to prevent mold growth. When evidence of mold or mildew is found, maintenance staff shall locate and repair the source of water intrusion and remove or clean moldy materials.

3. Exterior wall and foundation cracks and openings shall be sealed as soon as possible to minimize seepage of radon into buildings from surrounding soils.

4. Least toxic pest management practices shall be used to control and manage pests at school sites. (Education Code [17608-17614](#); Food and Agriculture Code 13182)

(cf. [3514.2](#) - Integrated Pest Management)

5. A carbon monoxide detector or alarm shall be installed in all school buildings that contain a fuel-burning appliance, fireplace, or forced-air furnace, unless otherwise exempted by state law or regulations. The device or alarm shall be located in close proximity to the appliance in order to accurately detect and alert school personnel of any leakage of carbon monoxide. (24 CCR 915.1-915.7)

6. Schedules and practices for routine housekeeping and maintenance shall be designed to effectively reduce levels of dust, dirt, and debris. Plain water, soap and water, or low-emission cleaning products shall be used whenever possible. Aerosols, including air fresheners and other products containing ozone, shall be avoided to the extent possible.

(cf. 5141.23 - Asthma Management)

7. Painting of school facilities and maintenance or repair activities that require the use of potentially harmful substances shall be limited to those times when school is not in session. Following any such activity, the facility shall be properly ventilated with adequate time allowed prior to reopening for use by any person.

8. Paints, adhesives, and solvents shall be used and stored in well-ventilated areas. These items shall be purchased in small quantities to avoid storage exposure.

(cf. [3514.1](#) - Hazardous Substances)

9. To the extent possible, printing and duplicating equipment that may generate indoor air pollutants, such as methyl alcohol or ammonia, shall be placed in locations that are well ventilated and not frequented by students and staff.

10. The district's tobacco-free schools policy shall be consistently enforced in order to reduce the health risks caused by second-hand smoke.

(cf. [3513.3](#) - Tobacco-Free Schools)

11. Staff and students shall be asked to refrain from bringing common irritants such as furred or feathered animals, stuffed toys that may collect dust mites, scented candles, incense, or air fresheners and from using perfume or cologne, scented lotion or hair spray, nail polish or nail polish remover, or other

personal care products that are not fragrance-free in classrooms, school buses, or other enclosed areas or buildings.

(cf. [6163.2](#) - Animals at School)

Outdoor Air Quality

The Superintendent or designee may coordinate with the local air resources control board and monitor local health advisories and outdoor air quality alerts to obtain forecasts of ozone levels, particle pollution, ultraviolet radiation levels, and/or temperature and humidity.

Whenever a forecast indicates a significant health risk, the Superintendent or designee shall communicate with each principal so that outdoor activities, especially those requiring prolonged or heavy exertion, may be avoided, limited in duration, or modified as necessary for all persons or for persons who may be particularly susceptible to the health risk involved.

(cf. [3516](#) - Emergencies and Disaster Preparedness Plan)

(cf. [3516.5](#) - Emergency Schedules)

(cf. 5141.7 - Sun Safety)

(cf. [6142.7](#) - Physical Education and Activity)

(cf. [6145](#) - Extracurricular and Cocurricular Activities)

(cf. [6145.2](#) - Athletic Competition)

Reduction of Vehicle Emissions

In order to reduce public exposure to toxic air contaminants, school bus drivers and other drivers of commercial motor vehicles shall limit unnecessary idling of vehicles at or near schools in accordance with 13 CCR [2480](#). The Superintendent or designee may also request parents/guardians to turn off their vehicles when they are idling on school grounds and encourage students to walk and/or bicycle to school.

(cf. [3540](#) - Transportation)

(cf. [3541.1](#) - Transportation for School-Related Trips)

(cf. [3542](#) - School Bus Drivers)

(cf. [5142.2](#) - Safe Routes to School Program)

Any school bus that is diesel-fueled, dual-fueled, or alternative diesel-fueled and has a gross vehicle weight rating over 14,000 pounds shall be equipped with a particulate filter designed to reduce particulate matter emissions, oxides of nitrogen emissions, and other pollutants. (13 CCR 2025)

Drinking Water Safety

The quality and safety of the district's drinking water sources shall be regularly assessed, and drinking fountains shall be regularly cleaned and maintained, to ensure that drinking water consumed at school does not contain dirt, mold, lead, or other impurities or contaminants that may cause serious health concerns.

Whenever any contaminants in the drinking water are determined to be a concern, the Superintendent or designee shall take reasonable steps to identify the source and mitigate any potential problem to ensure the availability of safe drinking water. As needed, the Superintendent or designee shall provide alternative sources of drinking water, such as bottled water or on-site water filtration, to ensure that students have access to fresh drinking water at mealtimes and at other times throughout the day.

(cf. [3550](#) - Food Service/Child Nutrition Program)

Whenever testing of drinking water finds concentrations of lead that exceed federal and state standards, the Superintendent or designee shall notify parents/guardians and take immediate steps to shut down and make inoperable any fountains or faucets where excess lead levels may exist.

Prevention of Lead Exposure

In addition to testing for the presence of lead in drinking water in district schools, the following steps shall be taken to minimize potential exposure to lead in school facilities:

1. School facilities shall be kept as dust-free and clean as possible.
2. Lead-based paint, lead plumbing and solders, or other potential sources of lead contamination shall not be used in the construction of any new school facility or the modernization or renovation of any existing school facility. (Education Code [32244](#))
3. Lead exposure hazards shall be evaluated before any renovation or remodeling is begun, and children shall not be allowed in or near buildings in which these activities may create lead dust. Contractors and workers shall comply with state and federal standards related to the handling and disposal of lead debris and the clean-up and containment of dust within the construction area.
4. Lead-based painted surfaces that are in good condition shall be kept intact. If lead-based paint is peeling, flaking, or chalking, contractors or workers shall follow state and federal standards for safe work practices to minimize contamination when removing the paint.
5. Soil with low lead content may be covered with grass, other plantings, concrete, or asphalt. For soil with high lead content, removal and abatement are required.

Any action to abate existing lead hazards shall be taken only by contractors, inspectors, and workers certified by the California Department of Public Health in accordance with 17 CCR [35001-35099](#). (Education Code [32243](#))

The Superintendent or designee shall notify parent/guardians, teachers, and staff members if significant risk factors for lead exposure are found. (Education Code [32243](#))

Prevention of Mercury Exposure

The Superintendent or designee shall identify any mercury-containing products that are present in district facilities and, to the extent possible, shall replace them with mercury-free alternatives.

Staff shall receive information about proper procedures to follow in the event of a mercury spill. Clean-up instructions, a clearly labeled kit with necessary clean-up supplies, and a list of local resources shall be readily accessible.

In the event of a spill, staff shall evacuate all students from the immediate area of the spill, ensure that any clothing or other items with mercury on them remain in the room, open windows to the outside, and close doors to other parts of the school. Staff who are trained in proper clean-up procedures may carefully clean a small spill. As needed for larger or difficult-to-clean spills, the Superintendent or designee shall use an experienced professional referred by the local health department or environmental agency.

Any products containing mercury shall be properly disposed at an appropriate hazardous waste collection facility.

Asbestos Management

The Superintendent shall designate an employee who shall ensure that the district's responsibilities related to asbestos inspection and abatement are implemented in accordance with federal and state regulations. This employee shall receive adequate training to perform these duties, including, as necessary, training on the health effects of asbestos; detection, identification, and assessment of asbestos-containing building materials; options for controlling asbestos-containing building materials; asbestos management programs; and relevant federal and state regulations. (40 CFR [763.84](#))

(cf. [4231](#) - Staff Development)

(cf. [4331](#) - Staff Development)

The designated employee shall ensure that the district complies with the following requirements:

1. School facilities shall be inspected for asbestos-containing building materials as necessary in accordance with the following:

a. Any school building that is leased, acquired, or otherwise used by the district shall be inspected for asbestos-containing building materials prior to its use as a school building, unless exempted by federal regulations. (40 CFR [763.85](#), [763.99](#))

b. At least once every six months, the district shall conduct a periodic surveillance consisting of a visual inspection of each school building that contains or is assumed to contain asbestos-containing building materials. (40 CFR [763.92](#))

c. At least once every three years, the district shall conduct a re-inspection of all known or assumed asbestos-containing building materials in each school building. (40 CFR [763.85](#))

2. Based on the results of the inspection, an appropriate response which is sufficient to protect human health and the environment shall be determined from among the options specified in 40 CFR [763.90](#). The district may select the least burdensome response, taking into consideration local circumstances, including occupancy and use patterns within the school building and economic concerns such as short-term and long-term costs. (40 CFR [763.90](#))

3. An asbestos management plan for each school site shall be maintained and regularly updated to keep it current with ongoing operations and maintenance, periodic surveillance, inspection, re-inspection, and response action activities. (15 USC [2643](#); 40 CFR [763.93](#))

The asbestos management plan shall be available for inspection in district and school offices during normal business hours. Parent/guardian, teacher, and employee organizations shall be annually informed of the availability of these plans. (40 CFR [763.84](#), [763.93](#))

(cf. [4112.9/4212.9/4312.9](#) - Employee Notifications)

(cf. [5145.6](#) - Parental Notifications)

4. Staff, students, and parents/guardians shall be informed at least once each school year about any inspections, response actions, and post-response actions, including periodic re-inspection and surveillance activities, that are planned or in progress. (40 CFR [763.84](#))

5. Inspections, re-inspections, periodic surveillance, and response actions, including operations and maintenance, shall be conducted in compliance with state and federal regulations for the protection and safety of workers and all other individuals. (Education Code [49410.5](#); 40 CFR [763.84](#), [763.90](#))

Asbestos inspection and abatement work, preparation of a management plan, and any maintenance activities that may disturb asbestos-containing building materials, except for emergency repairs or small-scale, short-duration maintenance activities, shall be completed by state-certified asbestos inspectors or contractors. (15 USC [2646](#); 40 CFR [763.84](#), [763.85](#), [763.91](#))

6. All custodial and maintenance employees shall be properly trained in accordance with applicable federal and/or state regulations. (40 CFR [763.84](#))

All district maintenance and custodial staff who may work in a building that contains asbestos-containing building materials, regardless of whether they are required to work with such materials, shall receive at least two hours of related asbestos awareness training. New maintenance and custodial staff shall receive such training within 60 days after beginning employment. Any maintenance or custodial staff who conduct activities that will disturb asbestos-containing building materials shall receive 14 hours of additional training. The trainings shall address the topics specified in 40 CFR [763.92](#). (15 USC [2655](#); 40 CFR [763.84](#), [763.92](#))

7. Short-term workers, such as telephone repair workers, utility workers, or exterminators, who may come in contact with asbestos in a school shall be provided information regarding the locations of known or suspected asbestos-containing building materials. (40 CFR [763.84](#))

8. Warning labels shall be posted immediately adjacent to any known or suspected asbestos-containing building material located in routine maintenance areas in accordance with 40 CFR [763.95](#). (40 CFR [763.84](#))

The district shall maintain, in both the district and school offices and for a period of three years, records pertaining to each preventive measure and response action taken; staff training; periodic surveillances conducted; cleaning, operations, and maintenance activities; and any fiber release episode. Regulation ROSEVILLE CITY SCHOOL DISTRICT

approved: June 18, 2018 Roseville, California

revised: September 12, 2019

AR 3514.2 - Integrated Pest Management

Definitions

Integrated pest management (IPM) means a strategy that focuses on long-term prevention or suppression of pest problems through a combination of techniques such as monitoring for pest presence and establishing treatment threshold levels, using nonchemical practices to make the habitat less conducive to pest development, improving sanitation, and employing mechanical and physical controls. (Education Code [17609](#); Food and Agricultural Code [13181](#))

(cf. 3510 - Green School Operations)

School site means any facility used as a child day care facility or for kindergarten, elementary, or secondary school purposes and includes the buildings or structures, playgrounds, athletic fields, vehicles, or any other area of property visited or used by students. (Education Code [17609](#))

Program Components

The Superintendent or designee shall designate an employee at the district office and/or school site to develop, implement, and coordinate an IPM strategy that incorporates effective, least toxic pest management practices.

The IPM coordinator shall prepare and annually update a districtwide or school site IPM plan based on the template provided by the California Department of Pesticide Regulation (DPR).

The IPM plan shall include the name of the district and/or school IPM coordinator, the pesticides expected to be applied at the school site by district employees and/or pest control applicators, and a date that the plan shall be reviewed and, if necessary, updated. (Education Code [17611.5](#))

The district shall use pesticides that pose the least possible hazard and are effective in a manner that minimizes risks to people, property, and the environment. Such pesticides shall only be used after careful monitoring indicates they are needed according to pre-established guidelines and treatment thresholds. (Food and Agricultural Code [13181](#))

The IPM plan and this administrative regulation shall not apply to reduced-risk pesticides, including self-contained baits or traps, gels or pastes used for crack and crevice treatments, antimicrobials, and pesticides exempt from registration by law. (Education Code [17610.5](#); 3 CCR 6147)

The district's program shall include, but not necessarily be limited to, the following components:

1. Identifying and monitoring pest population levels and identifying practices that could affect pest populations. Strategies for managing the pest shall be influenced by the pest species and whether that species poses a threat to people, property, or the environment.
2. Setting action threshold levels to determine when pest populations or vegetation at a specific location might cause unacceptable health or economic hazards that would indicate corrective action should be taken.
3. Modifying or eliminating pest habitats to deter pest populations and minimize pest infestations.
4. Considering a full range of possible alternative cost-effective treatments. Such alternative treatments may include taking no action or controlling the pest by physical, horticultural, or biological methods. Cost or staffing considerations alone will not be adequate justification for the use of chemical control agents.
5. Selecting nonchemical pest management methods over chemical methods whenever such methods are effective in providing the desired control or, when it is determined that chemical methods must be used, giving preference to those chemicals that pose the least hazardous effects to people and the environment.

No pesticide that is prohibited by DPR or the U.S. Environmental Protection Agency, as listed on the DPR web site, shall be used at a school site. (Education Code [17610.1](#))

6. Limiting pesticide purchases to amounts needed for the year. Pesticides shall be stored at a secure location that is not accessible to students and unauthorized staff. They shall be stored and disposed of in accordance with state regulations and product label directions.

(cf. [3514](#) - Environmental Safety)

(cf. [3514.1](#) - Hazardous Substances)

7. Informing parents/guardians and employees regarding pesticide use as described in the sections "Notifications" and "Warning Signs" below.
8. Ensuring that persons applying pesticides follow label precautions and are sufficiently trained in the principles and practices of IPM as described in the section "Training" below.
9. Evaluating the effectiveness of treatments to determine if revisions to the IPM plan are needed.

Training

The IPM coordinator and any employee or contractor who may be designated to apply a pesticide at a school site shall annually complete a DPR-approved training course on IPM and

the safe use of pesticides in relation to the unique nature of school sites and children's health. (Education Code [17614](#); Food and Agricultural Code [13186.5](#))

(cf. [4231](#) - Staff Development)

Any district employee who handles pesticides shall also receive pesticide-specific safety training prior to applying pesticides and annually thereafter in accordance with 3 CCR 6724.

Notifications

Staff and parents/guardians of students enrolled at a school site shall be annually notified, in writing, regarding pesticide products expected to be applied at the school site in the upcoming year. The notification shall include at least the following: (Education Code [17612](#))

1. The name of each pesticide product expected to be applied in the upcoming year and the active ingredient(s) in it
2. The Internet address (<http://www.cdpr.ca.gov/schoolipm>) used to access information on pesticides and pesticide use reduction developed by the DPR pursuant to Food and Agricultural Code [13184](#)
3. If the school has posted its IPM plan, the Internet address where the plan may be found
4. The opportunity to view a copy of the IPM plan in the school office
5. An opportunity for interested persons to register to receive prior notification of each application of a pesticide at the school site
6. Other information deemed necessary by the IPM coordinator

(cf. [1312.4](#) - Williams Uniform Complaint Procedures)

(cf. [3517](#) - Facilities Inspection)

(cf. [4112.9/4212.9/4312.9](#) - Employee Notifications)

(cf. [5145.6](#) - Parental Notifications)

Whenever a person registers to receive notice of individual pesticide application pursuant to item #5 above, the IPM coordinator shall notify such registered persons of individual pesticide applications at least 72 hours prior to the application. The notice shall include the product name, the active ingredient(s) in the product, and the intended date of application. (Education Code [17612](#))

If a pesticide product not included in the annual notification is subsequently intended for use at a school site, the IPM coordinator shall provide written notification of its intended use to staff

and parents/guardians of students enrolled at the school, at least 72 hours prior to the application. (Education Code [17612](#))

If a school chooses to use a pesticide not exempted pursuant to Education Code [17610.5](#), it shall post the school or district IPM plan on the school's web site or, if the school does not have a web site, then on the district web site. If neither the school nor district has a web site, then the IPM plan shall be included with the annual notification sent to staff and parents/guardians pursuant to Education Code [17612](#) as described above. When not required, the IPM coordinator may post or distribute the IPM plan at his/her discretion. (Education Code [17611.5](#))

Whenever the IPM coordinator deems that the immediate use of a pesticide is necessary to protect the health and safety of students, staff, or other persons at the school site, he/she shall make every effort to provide the required notifications prior to the application of the pesticide. (Education Code [17612](#))

Warning Signs

The IPM coordinator shall post a warning sign at each area of the school site where pesticides will be applied that shall be visible to all persons entering the treated area. The sign shall be posted at least 24 hours prior to the application and shall remain posted until 72 hours after the application. The warning sign shall prominently display the following information: (Education Code [17612](#))

1. The term "Warning/Pesticide Treated Area"
2. The product name, manufacturer's name, and the EPA's product registration number
3. Intended areas and dates of application
4. Reason for the pesticide application

When advance posting is not possible due to an emergency condition requiring immediate use of a pesticide to protect the health and safety of students, staff, or other persons or the school site, the warning sign shall be posted immediately upon application and shall remain posted until 72 hours after the application. (Education Code [17609](#), [17612](#))

Records

At the end of each calendar year, the IPM coordinator shall submit to DPR, on a form provided by DPR, a copy of the records of all pesticide use at the school site for that year, excluding any pesticides exempted by law and any pesticide use reported by the pest control operator pursuant to Food and Agricultural Code [13186](#). The IPM coordinator may submit more frequent reports at his/her discretion. (Education Code [17611](#))

Each school site shall maintain records of all pesticide use at the school for four years, and shall make the information available to the public, upon request, in accordance with the

California Public Records Act. A school may meet this requirement by retaining a copy of the warning sign posted for each pesticide application with a recording on that copy of the amount of the pesticide used. (Education Code [17611](#))

(cf. [1340](#) - Access to District Records)

(cf. [3580](#) - District Records)

Pesticide Use near School Site

Upon receiving notification pursuant to 3 CCR 6692 that a grower expects to use agricultural pesticides within one-quarter mile of a school site Monday through Friday from 6:00 a.m. to 6:00 p.m., the principal or designee shall notify the Superintendent or designee, IPM coordinator, staff at the school site, and parents/guardians of students enrolled at the school.

The principal or designee may communicate with any grower within one-quarter mile of the school to request that the grower not apply pesticides during evenings or weekends when school activities are scheduled.

Regulation ROSEVILLE CITY SCHOOL DISTRICT

approved: May 3, 2018 Roseville, California

Classroom Standards for Teachers

The following standards are to be adhered to by all staff for setting up and ongoing use of classrooms. Adherence to standards will enhance cleaning efficiency and help prevent Williams Act and Fire Safety violations.

1. Ensure classroom doors are appropriately unlocked and locked.
2. Stack (4-6) chairs or place on desks all chairs at the end of instructional day.
3. For cleaning access and efficiency of service, please spot-check floor. (Paper, pencils, crayons, books, binders, coats, lunch boxes, etc.)
4. Do not use duct tape or masking tape on carpet, floors, or doors. (collects dirt).
5. Rooms have one entry carpet and one district-approved carpet in grades K-3. All other carpets must meet district standards and receive approval - hemmed, large enough and sturdy enough to be vacuumed. Carpets should be placed flush with walls, bookcases, shelves or placed in the center of the room. Avoid gaps that can neither be vacuumed nor swept when placing rugs in rooms.
6. All chemicals (glass cleaners, white board cleaners, sanitizers) should be properly marked and stored away from student access.
7. All disinfectant wipes and sanitizers must be green certified by third party such as Green Seal or EPA's Safer Choice. Clorox and Lysol are not approved. The best cleaning agent is soap and water.
8. Room/pods should be free from slicing/cutting instruments (paper cutters, knives, etc).
9. Lights and light fixtures should not be used for hanging items.
10. Cloth furniture (chairs, couches, pillows, etc,) are not allowed for student use.
11. Vinyl bean bags cleaned on a regular basis are acceptable.
12. Adherence to Fire Marshall standards regarding extension cords, clear outlets, organized storage, twenty-four inch clearance from ceiling, etc.
13. Personal lighting fixtures are not allowed in classrooms
14. Personal fans and heaters are not allowed in classrooms. Environmental concerns should be addressed with supervisor
15. Room should be free of trip hazards, storage tip hazards on floors and cabinets.
16. Room should be free of clutter and allow for easy movement throughout.
17. Williams Act, Evacuation and Emergency Plans are properly posted.

Remember - First Impressions Are Important - If you were to walk into your room as a parent, does your room look clean, neat and organized?

USE OF COMBUSTIBLE MATERIALS IN SCHOOLS AND MAINTAINING SAFE EGRESS

Our goal at the Roseville Fire Department is to work with educators to minimize the risk of fire; protect the means of escape and to limit the spread of fire if one were to occur in our schools.

We understand that educators are taught to prepare a welcoming and instructive environment for their students. We also understand that preparing this environment involves the display of paper instructional materials and artwork on classroom walls. Nevertheless, a code limit to such combustible displays exists. If you can visualize how fast a fire can travel down a continuous wall of paper, you will understand why it is so. Please keep the following guidelines in mind when decorating your classrooms.

Non-flame retardant decorations in classrooms shall be limited to a "reasonable" amount of the wall space. The following guidelines are outlined in **NFPA 101 section 15.7.4.3** Artwork and teaching materials shall be permitted to be attached directly to the walls in accordance with the following:

- 1) The artwork and teaching materials shall not exceed **20 percent** of the wall area in a building that is not protected throughout by an approved automatic sprinkler system in accordance with Section 9.7.
- 2) The artwork and teaching materials shall not exceed **50 percent** of the wall area in a building that is protected throughout by an approved automatic sprinkler system in accordance with Section 9.7.

When placing decorations break up fire continuity by providing space between combustibles so that a fire is not able to continue from one end of the room or corridor to the other. Ceilings shall not be decorated with combustible materials. Displays must be securely fixed to the wall and must be flat against the wall. No 3-D decorations are to be used. The fire inspectors understand the need to display instructional materials and artwork and are reasonable. *They will not bring out their rulers and start measuring surface areas and distances unless they feel that the employee involved is being unresponsive to their concern about fire safety.*

- 1) No materials shall be affixed to, or within, 2 feet of exit doors, alarm pull stations, fire extinguishers or exit signs. Outlets, light switches and electrical panels shall not be covered and should have 6" of clearance around them.
- 2) Flame producing devices, such as candles, shall not be used in classrooms.
- 3) Extension cords are for temporary use only. If needed they should be surge suppressors or powerstrips. They cannot be run under carpet or taped to the floor. Do not string together surge suppressors.
- 4) **KEEP EXITS AND EXITWAYS UNBLOCKED AT ALL TIMES**

The Fire Code can be stringent and may sometimes conflict with desirable educational goals and environments. The code is Law and it directs that life safety requirements take precedence over any other perceived needs. We would like to thank you in advance for your cooperation.

***Our Mission...** Protect and enhance the safety and well being of residents,
businesses, customers and partners.*

***We will accomplish this by...** Delivering exceptional service and compassionate
solutions as a cohesive team with dedication, pride and vigilance.*

Annual Notice of Automated External Defibrillation Program on Campus

ROSEVILLE CITY SCHOOL DISTRICT

JULY 29, 2020

Sudden Cardiac Arrest is the nation's leading cause of death. 350,000 relatives, co-workers, and neighbors will suffer a Sudden Cardiac Arrest this year. Despite immediate CPR efforts and a rapid 911 response, tragically less than 5% will survive. In response to these chilling statistics the Food and Drug Administration, Federal and State Legislatures, as well as OSHA, have approved Automatic External Defibrillators (AEDs) and recommend their implementation in the public.

AEDs are devices designed to administer an electric shock to the heart of a Sudden Cardiac Arrest victim. This "electric medicine" stops a fatal rhythm called Ventricular Fibrillation and allows the victim's heart to begin beating on its own. The shock can only be delivered after the device has verified the patient is in Cardiac Arrest, and **delivery of an inappropriate shock is not possible.**

The American Heart Association as well as Federal guidelines recommend that AED treatment be given within the first 3-5 minutes of a Sudden Cardiac Arrest. To achieve this recommendation AEDs must be strategically placed and appropriate numbers of employees trained to use them. By doing so we may improve the survivability of Cardiac Arrest by as much as 65%. Every minute that defibrillation is delayed; 7-10% of survivability is lost. After 10 minutes without defibrillation the patient's chances of survival drop to less than 5%. **To effectively treat Sudden Cardiac Arrest, AEDs must be immediately available and deployed.**

Once the AED is deployed and applied to the unconscious victim, the AED will provide verbal, written, and visual directions for resuscitation. If you would like to participate in CPR/AED certification classes, they are available to you. We have training provided through DiPietro & Associates, Inc. You may inquire about training with your School Principle or with DiPietro & Associates directly at training@dipietroassociates.com

If you encounter a person who is unconscious and unresponsive, with no obvious signs of life, tell someone to call 911 and someone else to get the AED. Start CPR immediately and continue doing so until the AED or EMS arrives. Once the AED arrives;

1. Turn on the AED and follow the visual and/or audio prompts.
2. Open the person's shirt and wipe his or her bare chest dry. If the person is wearing any medication patches, you should use a gloved (if possible) hand to remove the patches before wiping the person's chest.
3. Attach the AED pads, and plug in the connector (if necessary).
4. Make sure no one, including you, is touching the person. Tell everyone to "stand clear." While the AED analyzes the patient's heart rhythm.
5. If the AED recommends that you deliver a shock to the person, make sure that no one, including you, is touching the person – and tell everyone to "stand clear." Once clear, press the "shock" button.
6. Begin CPR after delivering the shock. Or, if no shock is advised, begin CPR. Perform 2 minutes (about 5 cycles) of CPR and continue to follow the AED's prompts. If you notice obvious signs of life, discontinue CPR and monitor breathing for any changes in condition.

Below, please find and be made aware of the locations of AEDs on your campus.
