

VISITOR PHOTO/VIDEO REMINDER

Please read these quick reminders for taking photos and/or videos of students on any RCSD campus or during any RCSD activity.

student privacy matters

We want to remind all visitors and volunteers that some of our students are exempt from having their photo or information shared publicly. For student privacy purposes, please only photograph and/or video your own student(s) when on campus, while attending a class field trip, etc.

help keep students safe

Please do not share photos of any student besides your own on online platforms. If others are in the photo, please crop or blur/hide their faces. For safety purposes, also do not share room numbers or school site maps on online platforms.

community events

Photos of students during events which are open to the community (after school hours festivals, sporting events, performances, etc.) are allowed. All attendees of these community events should be aware that photos and/or videos may be shared on online platforms. Please contact school administration if you have questions or concerns.
