Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Roseville City School District (the "District"), as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District, as of June 30, 2024, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

The Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis, the Schedule of Revenues, Expenditures and Changes in Fund Balance-Budget (Non-GAAP) and Actual - General Fund, the Schedule of Changes in the District's Total Other Postemployment Benefits (OPEB) Liability, Schedule of Proportionate Share of Net Pension Liability and Schedule of Pension Contributions be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying supplementary information such as the combining and individual nonmajor fund financial statements and schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the *supplementary information* is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 11, 2024 on our consideration of District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

ROSEVILLE CITY SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2024

Introduction

This section of the Roseville City School District's annual financial report presents our discussion and analysis of the District's financial performance during the fiscal year that ended on June 30, 2024. Please read it in conjunction with the Independent Auditor's Report presented on the pages of the District's financial statements, which immediately follow this section.

USING THIS ANNUAL REPORT

The annual report consists of a series of financial statements. The Statement of Net Position and Statement of Activities provide information about the activities of the District as a whole and present a longer-term view of the District's finances. The fund financial statements for governmental activities provide information about how the District services were financed in the short-term and how much remains for future spending. Fund financial statements also report the District's operations in more detail than the government-wide statements by providing information about the District's most significant funds. The remaining statements provide financial information about activities for which the District acts solely as a trustee or agent for the benefit of those outside the District.

FINANCIAL HIGHLIGHTS

- Total District's overall financial status remains strong, with total net position increasing \$42,352,984 or 18% during FY 2023-2024.
- Capital assets, net of depreciation, increased \$551,325.
- The District continues to record a liability in the financial statements to reflect the District's proportionate share of the net pension liabilities related to its participation in the CalSTRS and CalPERS pension plans as required by the Governmental Accounting Standards Board.
- Long-term debt has increased by \$11,604,373 from FY 2022-23.
- The District maintains sufficient reserves for a district its size. It meets the state required minimum reserve for economic uncertainty of 3% of total General Fund expenditures, transfers out, and other uses (total outgo).
- In addition, the District maintains board-committed fund balances constrained to specific purposes by a majority vote of the Board. At June 30, 2024, the District had \$28,830,235 in committed funds for the following purposes: (1) maintenance \$1,555,737; (2) curriculum adoption \$4,432,637; (3) new school start-up \$11,315,233; (4) technology infrastructure \$824,149; (5) technology replacement \$6,158,028; (6) safety measures \$44,451 (7) SELPA Realignment \$3,000,000 (8) SELF AB-218 Liability \$1,500,000;

THE FINANCIAL REPORT

The full annual financial report consists of three parts: basic financial statements, supplementary information, and management's discussion and analysis. The three sections together provide a comprehensive overview of the District. The basic financial statements are comprised of the two kinds of statements that present financial information from different perspectives, government-wide and funds.

- Government-wide financial statements, which comprise the first two statements, provide both short-term and long-term information about the District's overall financial position.
- Individual parts of the District, which are reported as fund financial statements comprise the remaining statements.

Basic services funding is described in the governmental funds statements. These statements include short-term financing and identify the balance remaining for future spending.

Financial relationships, for which the District acts as an agent or trustee for the benefit of others to whom the resources belong, are presented in the fiduciary funds statements.

Notes to the financials, which are included in the financial statements, provide more detailed data and explain some of the information in the statements. The required supplementary information provides further explanations and provides additional support for the financial statements. A comparison of the District's budget for the year is included.

Reporting the District as a Whole

The District as a whole is reported in the Government-wide statements and uses accounting methods similar to those used by companies in the private sector. All the District's assets and liabilities are included in the Statement of Net Position. The Statement of Activities reports all of the current year's revenues and expenses regardless of when cash is received or paid.

The District financial health or net position can be measured by taking the difference between the District's assets, deferred outflows of resources, liabilities and deferred inflows of resources.

- Increases or decreases in the District's net position over time indicate whether its financial position is improving or deteriorating, respectively.
- Additional non-financial factors such as the condition of school buildings and other facilities, and changes in the property tax base of the District need to be considered in assessing the overall health of the District.

In the Statement of Net Position and the Statement of Activities all amounts represent governmental activities, since the District does not provide any services that should be categorized as business-type activities.

ROSEVILLE CITY SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS

JUNE 30, 2024

The basic services provided by the District, such as regular and special education, administration, and transportation are included, and are primarily financed by property taxes and state formula aid. Non-basic services, such as child nutrition are also included, but are financed by a combination of state and federal contract and grants, and local revenues.

Reporting the District Most Significant Funds

The District's fund-based financial statements provide detailed information about the District's most significant funds. Some funds are required to be established by State law and bond covenants. However, the District establishes many other funds as needed to control and manage money for specific purposes.

Governmental Funds

The governmental funds of the Roseville City School District are the General Fund, Student Activity Special Revenue Fund, Cafeteria Fund, Capital Facilities Fund, County School Facilities Fund and Bond Interest and Redemption Fund. Governmental fund reporting focuses on how money flows into and out of the funds and the balances remaining at the year's end. A modified accrual basis of accounting measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's operations and services. Governmental fund information helps determine the level of financial resources available in the near future to finance the District's programs.

Proprietary Funds

Services for which the District charges a fee are generally reported in proprietary funds on a full accrual basis. These include both Enterprise funds and Internal Service funds. Enterprise funds are considered business-type activities and are also reported under a full accrual method. This is the same basis as business-type activities; therefore, no reconciling entries are required. Internal service funds are reported with Governmental Funds. The District has no funds of this type.

Fiduciary Funds

The District is the trustee, or fiduciary, for its scholarship fund. All of the District's fiduciary activities are reported in separate fiduciary statements. We exclude these activities from the District's other financial statements because the District cannot use these assets to finance their operations. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

OUTSTANDING DEBT AT YEAR END (CONCLUDED)

The general obligation bonds are financed by the local taxpayers through voter-approved elections and represent 7% of the District's long-term debt. The liability for the certificates of participation represents 3% of the District's long-term debt. The remaining portion of long-term debt, which will be paid from the General Fund, consists of lease obligations, the District's share of early retirement incentive payments, the value of the vacation earned but not taken as of June 30, 2024, the GASB 75 total OBEP liability, and the GASB 68 net pension liabilities. The District has continued to meet the debt service requirements of all its long-term debt.

The District continues to record a liability in the financial statements to reflect the District's proportionate share of the net pension liabilities related to its participation in the CalSTRS and CalPERS pension plans as required by the Governmental Accounting Standards Board.

The notes to the financial statements are an integral part of the financial presentation and contain more detailed information as to interest, principal, retirement amounts, and future debt retirement dates.

The combined fund balances of all governmental funds increased by \$37,001,299 primarily due to: one-time funding Capital Facilities Funds being carried over for future expenditures.

GENERAL BUDGETARY HIGHLIGHTS

The District's budget is prepared in accordance with California law and is based on the modified accrual basis of accounting. Over the course of the year, the District revises its budget based on updated financial information. The original budget, approved in June for July 1, is based on May Revised figures and updated, if necessary, within 45 days after the State approves its final budget. In addition, the District revises its budget at First and Second Interim.

ECONOMIC FACTORS BEARING ON THE DISTRICT'S FUTURE

- Future revenue increases will come through enrollment growth and cost of living adjustments, both volatile factors and more difficult to predict long-term through the Local Control Funding Formula.
- The West Roseville Specific Plan Area continues to experience growth. The District currently operates five schools in the area: Junction Elementary School, Barbara Chilton Middle School, Fiddymont Farm Elementary School, Orchard Ranch Elementary School, and Riego Creek Elementary School. The sixth school, Westbrook Elementary, opened in August 2023. Additionally, construction of a new school in the Winding Creek Development is set to begin in Spring 2025, with an anticipated opening in August 2026.
- Special Education costs continue to increase, especially costs related to high-needs students.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, parents, investors, and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. Amounts reported for governmental activities in the statement of activities are different from amounts reported in governmental funds because:

Capital outlay: In governmental funds, the costs of capital assets are reported as expenditures in the period when the assets are acquired. In the statement of activities, costs of capital assets are allocated over their estimated useful lives as depreciation expense. The difference between capital outlay expenditures and depreciation expense for the period is:

Expenditures for capital outlay	\$ 7,543,514	
Depreciation expense	<u>(6,992,189)</u>	551,325

Debt service: In governmental funds, repayments of long-term debt are reported as expenditures. In the government-wide statements, repayments of long-term debt are reported as reductions of liabilities. Expenditures for repayment of the principal portion of long-term debt were:

3,715,622

Accreted interest on capital appreciation bonds is not recognized as an expenditure in the governmental fund financial statements until paid. In the statement of activities, accreted interest is recognized as an expense as the capital appreciation bonds accrete in value. The net amount of accreted interest recognized in the current year was:

(383,896)

In governmental funds, early retirement incentive costs are recognized when payments are made. In the statement of activities, early retirement incentive costs are recognized on the accrual basis.

531,474

Debt proceeds: In governmental funds, proceeds from debt are recognized as Other Financing Sources. In the government-wide statements, proceeds from debt are reported as increases to liabilities. Amounts recognized in governmental funds as proceeds from debt, net of issue premium

(22,365)

Unmatured interest on long-term debt: In governmental funds, interest on long-term debt is recognized in the period that it becomes due. In the government-wide statement of activities, it is recognized in the period that it is incurred. Unmatured interest owing at the end of the period, less matured interest paid during the period but owing from the prior period was:

10,182

Other postemployment benefits (OPEB): In governmental funds, OPEB expenses are recognized when employer contributions are made. In the statement of activities, OPEB expenses are recognized on the accrual basis. This year, the difference between OPEB expenses and actual employer OPEB contributions was:

(891,235)

Pensions: In government funds, pension costs are recognized when employer contributions are made in the statement of activities, pension costs are recognized on the accrual basis. This year, the difference between accrual-basis pension costs and actual employer contributions was:

1,900,634

Compensated absences in governmental funds are measured by the amounts paid during the period. In the statement of activities, compensated absences are measured by the amounts earned. The difference between compensated absences paid and compensated absences earned was:

(85,577)

Amortization of debt issue premium or discount: In governmental funds, if debt is issued at a premium or at a discount, the premium or discount is recognized as an Other Financing Source or an Other Financing Use in the period it is incurred. In the government-wide statements, the premium or discount is amortized as interest over the life of the debt.

ROSEVILLE CITY SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2024

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. ACCOUNTING POLICIES

The Roseville City School District (the District) accounts for its financial transactions in accordance with the policies and procedures of the California Department of Education's California School Accounting Manual. The accounting policies of the District conform to generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board (GASB) and the American Institute of Certified Public Accountants (AICPA).

B. REPORTING ENTITY

The Board of Trustees is the level of government which has governance responsibilities over all activities related to public elementary school education in the District. The District and Roseville City School's Public Financing Corporation (the "Corporation") have a financial and operational relationship which meets the reporting entity definition criteria of GASB Codification of Governmental Accounting and Financial Reporting Standards, Section 2100, for inclusion of the Corporation as a component unit of the District. Accordingly, financial activities of the Corporation reported in the Capital Facilities Fund of the District.

The following are those aspects of the relationship between the District and the Corporation which satisfy GASB Codification Section 2100 criteria.

A - Manifestations of Oversight

1. The Corporation's Board of Directors was appointed by the District's Board of Trustees.
2. The Corporation has no employees. The District's Superintendent functions as the agent of the Corporation and did not receive additional compensation for work performed in this capacity. The District exercises significant influence over operations of the Corporation as it is anticipated that the District will be the sole lessee of all facilities owned by the Corporation.

B - Accounting for Fiscal Matters

1. All major financing arrangements, contracts, and other transactions of the Corporation must have the consent of the District.
2. Any deficits incurred by the Corporation will be reflected in the lease payments of the District. A surpluses of the Corporation revert to the District at the end of the lease period.
3. It is anticipated that the District's lease payments will be the sole revenue source of the Corporation.
4. The District has assumed a "moral obligation," and potentially a legal obligation, for any debt incurred by the Corporation.

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2024

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. REPORTING ENTITY (CONTINUED)

C - Scope of Public Service and Financial Presentation

1. The Corporation was created for the sole purpose of financially assisting the District.
2. The Corporation's financial activity is presented in the financial statements as the Capital Facilities Fund. Certificates of Participation issued by the Corporation are included in the District's long-term liabilities.

C. BASIS OF PRESENTATION

Financial Statements

The basic financial statements include a Management's Discussion and Analysis (MD & A) section providing an analysis of the District's overall financial position and results of operations, financial statements prepared using full accrual accounting for all of the District's activities, including infrastructure, and a focus on the major funds.

Government-Wide Financial Statements

The Statement of Net Position and the Statement of Activities displays information about the reporting government as a whole. Custodial funds are not included in the government-wide financial statements. Custodial funds are reported only in the Statement of Fiduciary Net Position at the fund financial statement level.

The Statement of Net Position and the Statement of Activities are prepared using the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Revenues, expenses, gains, losses, assets and liabilities resulting from nonexchange transactions are recognized in accordance with the requirements of Governmental Accounting Standards Board Codification Section (GASB Cod. Sec.) N50.118-.121.

Program revenues: Program revenues included in the Statement of Activities derive directly from the program itself or from parties outside the District's taxpayers or citizenry, as a whole; program revenues reduce the cost of the function to be financed from the District's general revenues.

Allocation of indirect expenses: The District reports all direct expenses by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function. Depreciation expense is specifically identified by function and is included in the direct expense of each function. Interest on general long-term liabilities is considered an indirect expense and is reported separately on the Statement of Activities.

ROSEVILLE CITY SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2024

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

3. BASIS OF PRESENTATION (CONTINUED)

Fund Accounting

The accounts of the District are organized on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures. District resources are allocated to and accounted for in individual funds based upon the purpose for which they are to be spent and the means by which spending activities are controlled.

4. BASIS OF ACCOUNTING

Basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Fiduciary funds use the accrual basis of accounting.

Revenues - Exchange and Non-exchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded under the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. "Available" means the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. To achieve comparability of reporting among California districts, and so as not to distort normal revenue patterns with specific respect to reimbursement grants and correction to state-aid apportionments, the California Department of Education has defined available for District as collectible within one year.

Non-exchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, and entitlements. Under the accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants and entitlements is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Eligibility requirements include timing requirements, which specify the year when the resources are to be used or the fiscal year when use is first permitted; matching requirements, in which the District must provide local resources to be used for a specific purpose; and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. Under the modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

ROSEVILLE CITY SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2024

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. BASIS OF ACCOUNTING (CONTINUED)

Unearned Revenue

Unearned revenue arises when assets are received before revenue recognition criteria have been satisfied. Grants and entitlements received before eligibility requirements are met are recorded as unearned revenue. On governmental fund financial statements, receivables associated with non-exchange transactions that will not be collected within the availability period have also been recorded as unearned revenue.

Expenses/Expenditures

On the accrual basis of accounting, expenses are recognized at the time a liability is incurred. On the modified accrual basis of accounting, expenditures are generally recognized in the accounting period in which the related fund liability is incurred, as under the accrual basis of accounting. However, under the modified accrual basis of accounting, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Allocations of cost, such as depreciation and amortization, are not recognized in the governmental funds.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

E. FUND ACCOUNTING

The accounts of the District are organized on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity or retained earnings, revenues, and expenditures or expenses, as appropriate.

District resources are allocated to and accounted for in individual funds based upon the purpose for which they are to be spent and the means by which spending activities are controlled.

The **General Fund** is the general operating fund of the District and accounts for all revenues and expenditures of the District not encompassed within other funds. All general tax revenues and other receipts that are not allocated by law or contractual agreement to some other fund are accounted for in this fund. General operating expenditures and the capital improvement costs that are not paid through other funds are paid from the General Fund.

FOR THE FISCAL YEAR ENDED JUNE 30, 2024

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

E. FUND ACCOUNTING (CONTINUED)

The **Special Revenue Funds** are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. This classification includes the Student Activity Fund and the Cafeteria Fund.

The **Student Activity Fund** is used to account for assets held by the District on behalf of student groups. The District maintains three student body funds.

The **Cafeteria Fund** is used to account separately for federal, state, and local resources to operate the District's food service program.

The **Capital Projects Funds** are used to account for resources used for the acquisition of capital facilities by the District. This classification includes the Capital Facilities Fund and County School Facilities.

The **Capital Facilities Fund** is a capital projects fund that is used to account for resources used for the acquisition of capital facilities by the District.

The **County School Facilities Fund** is used primarily to account for new school facility construction, modernization projects, and facility hardship grants, as provided in the Leroy F. Greene School Facilities Act of 1998.

The **Debt Service Funds** are established to account for the accumulation of resources for and the payment of principal and interest on general long-term debt.

The **Bond Interest and Redemption Fund** is used for the repayment of bonds issued for an LEA (Education Code sections 15125–15262).

Fiduciary funds are used to account for assets held in a trustee or custodial capacity for others that cannot be used to support the LEA's own programs. The key distinction between trust and custodial funds is that trust funds are subject to a trust agreement that affects the degree of management involvement and the length of time that the resources are held.

The **Scholarship Trust Fund** is a fiduciary fund that is used to account for assets held by the District as Trustee.

FOR THE FISCAL YEAR ENDED JUNE 30, 2024

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

F. BUDGETS AND BUDGETARY ACCOUNTING

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds. By state law, the District's governing board must adopt a final budget no later than July 1. A public hearing must be conducted to receive comments prior to adoption. The District's governing board satisfied these requirements.

These budgets are revised by the District's governing board and District superintendent during the year to give consideration to unanticipated income and expenditures. The original and final revised budgets are presented for the General Fund in the financial statements.

Formal budgetary integration was employed as a management control device during the year for all budgeted funds. The District employs budget control by minor object and by individual appropriation accounts. Expenditures cannot legally exceed appropriations by major object account.

G. ENCUMBRANCES

Encumbrance accounting is used in all budgeted funds to reserve portions of applicable appropriations for which commitments have been made. Encumbrances are recorded for purchase orders, contracts, and other commitments when they are written. Encumbrances are liquidated when the commitments are paid. All encumbrances are liquidated at June 30.

H. DEPOSITS AND INVESTMENTS

Cash balances held in banks and in revolving funds are insured to \$250,000 by the Federal Deposit Insurance Corporation.

In accordance with Education Code Section 41001, the District maintains substantially all of its cash in the County Treasury. The county pools these funds with those of other districts in the county and invests the cash. These pooled funds are carried at cost, which approximates market value. Interest earned is deposited quarterly into participating funds. Any investment losses are proportionately shared by all funds in the pool.

The county is authorized to deposit cash and invest excess funds by California Government Code Section 53648 et seq. The funds maintained by the county are either secured by federal depository insurance or are collateralized.

I. RECEIVABLES

Receivables are made up principally of amounts due from the State of California for Local Control Funding Formula and Categorical programs. The District has determined that no allowance for doubtful accounts was required as of June 30, 2024.

J. PREPAID EXPENDITURES

The District has the option of reporting an expenditure in governmental funds for prepaid items either when purchased or during the benefiting period. The District has chosen to report the expenditure when incurred. On the government-wide statements, the District reports unamortized debt issuance cost as prepaid expense, if material.

K. INTERFUND BALANCES

Interfund activity is reported as either loans, services provided, reimbursements or transfers. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs at cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers.

L. CAPITAL ASSETS

Capital assets purchased or acquired, with an original cost of \$5,000 or more, are recorded at historical cost or estimated historical cost. Contributed assets are reported at acquisition value for the contributed asset. Additions, improvements and other capital outlay that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Capital assets are depreciated using the straight-line method over 4 - 30 years depending on asset types.

M. UNEARNED REVENUE

Cash received for federal and state special projects and programs is recognized as revenue to the extent that qualified expenditures have been incurred. Unearned revenue is recorded to the extent that cash received on specific projects and programs exceeds qualified expenditures.

N. COMPENSATED ABSENCES

All vacation pay plus related payroll taxes is accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in the governmental funds only if they have matured for example, as a result of employee resignations and retirements.

Sick leave benefits are not recognized as liabilities of the District. The District's policy is to record sick leave as an operating expense in the period taken since such benefits do not vest nor is payment probable; however, unused sick leave is added to the creditable service period for calculation of retirement benefits when the employee retires.

O. FINANCING LEASES

A lease is defined as a contract that conveys control of the right to use another entity's nonfinancial asset as specified in the contract for a period of time in an exchange or exchange-like transaction. The long-term liability and corresponding asset for financial leases are recorded in the financial statements to the extent that the District's lease capitalization threshold is met, \$3,000,000. Amortization of related assets using the straight-line method over the life of the contract. As of June 30, 2024, the District did not have any financing leases that met the threshold.

P. SUBSCRIPTION BASED INFORMATION TECHNOLOGY AGREEMENTS (SBITA)

A SBITA is defined as a contract that conveys control of the right to use another party's (a SBITA vendor's) IT software, alone or in combination with tangible capital assets (the underlying IT assets) as specified in the contract for a period of time in an exchange or exchange-like transaction. The long-term liability and corresponding asset for SBITAs are recorded in the financial statements to the extent that the District's capitalization threshold is met, \$3,000,000. Amortization of related assets using the straight-line method over the life of the contract. As of June 30, 2024, the District did not have any subscription based information technology agreements that met the threshold.

Q. LONG-TERM OBLIGATIONS

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the Statement of Net Position. Bond premiums and discounts as well as issuance costs are recognized in the current period.

In the fund financial statements, governmental funds recognize bond premiums and discounts as well as bond issuance costs, during the current period. The face amount of the debt issued, premiums, or discounts is reported as other financing sources/uses.

Q. DEFERRED INFLOWS AND OUTFLOWS OF RESOURCES

In addition to assets, the statement of net position includes a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s), and as such will not be recognized as an outflow of resources (expense/expenditures) until then. The District has recognized a deferred outflow of resources related to the recognition of the net pension liability reported which is in the Statement of Net Position.

In addition to liabilities, the statement of net position includes a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and as such, will not be recognized as an inflow of resources (revenue) until that time. The District has recognized a deferred inflow of resources related to the recognition of the net pension liability reported which is in the Statement of Net Position.

R. PENSIONS

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Roseville City School District's California Public Employees' Retirement System (CalPERS) and California State Teachers' Retirement System (CalSTRS) plans (Plans) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by CalPERS and CalSTRS, respectively. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

S. NET POSITION

Net position is displayed in three components:

Net Investment in Capital Assets. Net investment in capital assets consist of capital assets, net of accumulated depreciation, reduced by outstanding related debt and adjusted for deferred outflows/inflows resulting from refunding debt instruments.

Restricted Net Position. Restrictions of the ending net position indicate the portions of net position not appropriable for expenditure or amounts legally segregated for a specific future use. The restriction for legally restricted programs represents the portion of net position restricted to specific program expenditures. The restriction for capital projects represents the portion of net position restricted for capital projects. The restriction for debt service represents the portion of net position which the District plans to expend on debt repayment in the ensuing years. It's the District's policy to use restricted net position first when allowable expenses are incurred.

Unrestricted Net Position. All other net position that do not meet the definitions of "restricted" or "net investment in capital assets".

T. ELIMINATIONS AND RECLASSIFICATIONS

In the process of aggregating data for the government-wide statements, some amounts reported as interfund activity and balances in the fund financial statements were eliminated or reclassified. Interfund receivables and payables were eliminated to minimize the "grossing up" effect on assets and liabilities within the governmental activities column.

U. USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

V. FUND BALANCE

The governmental fund financial statements present fund balances based on classifications that comprise a hierarchy that is based primarily on the extent to which the District is bound to honor constraints on the specific purposes for which amounts in the respective governmental funds can be spent. The classifications used in the governmental fund financial statements are as follows:

- **Nonspendable:** This classification includes amounts that are not expected to be converted to cash, such as resources that are not in a spendable form (e.g. inventories and prepaids) or that are legally or contractually required to be maintained intact. The District has classified its revolving cash account as being Nonspendable as it is required to be maintained intact.
- **Restricted:** This classification includes amounts constrained to specific purposes by their providers or by law. The District has classified federal and state categorical programs as being restricted because their use is restricted by Statute. Debt service resources are to be used for future servicing of the general obligation bonds and are restricted through debt covenants.
- **Committed:** This classification includes amounts constrained to specific sources by the Board. For this purpose, all commitments of funds shall be approved by a majority vote of the Board. The constraints shall be imposed no later than the end of the reporting period of June 30, although the actual amounts may be determined subsequent to that date but prior to the issuance of the financial statements.
- **Assigned:** This classification includes amounts which the Board or its designee intends to use for a specific purpose but are neither restricted nor committed. The Board delegates authority to assign funds to the assigned fund balance to the Superintendent or designee and authorizes the assignment of such funds to be made any time prior to the issuance of the financial statements. This classification also includes the remaining positive fund balance for all governmental funds except for the General Fund. The Agency has assigned funds for Other Capital Projects that are to be used for the repair and replacement of equipment.
- **Unassigned:** This classification includes the residual fund balance for the General Fund and includes the amount designated for economic uncertainties. To protect the District against unforeseen circumstances such as revenue shortfalls and unanticipated expenditures, the Board maintains a minimum unassigned fund balance which includes a reserve for economic uncertainties equal to at least one month of average general fund expenditures or 7% of general fund expenditures and other financing uses. If the unassigned fund balance falls below this level due to an emergency situation, unexpected expenditures, or revenue shortfalls, the Board shall develop a plan to recover the fund balance which may include dedicating new unrestricted revenues, reducing expenditures, and/or increasing revenues or pursuing other funding sources.

When multiple types of funds are available for an expenditure, the District shall first utilize funds from the restricted fund balance as appropriate, then from committed fund balance, then from the assigned fund balance, and lastly from the unassigned fund balance.

W. LOCAL CONTROL FUNDING FORMULA/PROPERTY TAX

The District's local control funding formula is received from a combination of local property taxes, state apportionments, and other local sources.

Placer County is responsible for assessing, collecting, and apportioning property taxes which are levied for each fiscal year on taxable real and personal property in the county. The levy is based on the assessed values as of the preceding January 1, which is also the lien date. Property taxes on the secured roll are due on November 1 and February 1, and taxes become delinquent after December 10 and April 10, respectively. Property taxes on the unsecured roll are due on the lien date (January 1), and become delinquent if unpaid by August 31.

Secured property taxes are recorded as revenue when apportioned, in the fiscal year of the levy. The county apportions secured property tax revenue in accordance with the alternate method of distribution prescribed by Section 4705 of the California Revenue and Taxation Code. This alternate method provides for crediting each applicable fund with its total secured taxes upon completion of the secured tax roll approximately October 1 of each year.

The County Auditor reports the amount of the District's allocated property tax revenue to the California Department of Education. Property taxes are recorded as local revenue limit sources by the District.

The California Department of Education reduces the District's entitlement by the District's local property tax revenue. The balance is paid from the state General Fund, and is known as the State Apportionment.

2. CASH AND CASH EQUIVALENTS

Cash and cash equivalents as of June 30, 2024 consist of the following:

	Governmental Funds	Fiduciary Activities
Cash in County Treasury	\$ 137,105,620	\$ 500
Cash on hand and in banks	326,187	33,567
Cash in revolving fund	25,000	-
Totals	<u>\$ 137,456,807</u>	<u>34,067</u>

Pooled Funds: In accordance with Education Code Section 41001, the District maintains substantially all of its cash in the interest-bearing Placer County Treasurer's Pooled Investment Fund. The District is considered to be an involuntary participant in an external investment pool. The fair value of the District's investment in the pool is reported in the financial statements at amounts based upon the District's prorata share of the fair value provided by the County Treasurer for the entire portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by the County Treasurer, which is recorded on the amortized cost basis.

Deposits: Custodial Credit Risk: The District limits custodial credit risk by ensuring uninsured balances are collateralized by the respective financial institution. Cash balances held in banks are insured up to \$250,000 by the Federal Deposit Insurance Corporation (FDIC) and are collateralized by the respective financial institution. At June 30, 2024, the carrying amount of the District's accounts was \$425,570 and the bank balance was \$425,570, all of which was insured.

Investment Interest Rate Risk: The District does not have a formal investment policy that limits cash and investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. At June 30, 2024, the District had no significant interest rate risk related to cash and investments held.

Investment Credit Risk: The District does not have a formal investment policy that limits its investment choices other than the limitations of state law.

Concentration of Investment Credit Risk: The District does not place limits on the amount it may invest in any one issuer. At June 30, 2024, the District had no concentration of credit risk.

3. INTERFUND TRANSACTIONS

Interfund transactions are reported as loans, services provided, reimbursements, or transfers. Loans are reported as interfund receivables and payables, as appropriate, and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures. Reimbursements occur when one fund incurs a cost, charges the appropriate benefiting fund, and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers.

The interfund receivables and payables as of June 30, 2024 are as follows:

CERTIFICATES OF PARTICIPATION

On January 25, 2012, the Roseville City School's Public Financing Corporation issued refunding certificates of participation in the amount of \$12,505,000, with an interest rate of 3.30% per annum. The District used the proceeds from the sale to redeem \$12,070,000 of the outstanding 1998 certificates of participation which were originally issued to finance a portion of the cost of construction of three new elementary schools and one new middle school. The refunding certificates of participation are secured by Junction Elementary School. The District's agreement with the Corporation contains a provision that in the event of default, it is lawful for the Corporation to exercise any and all remedies granted pursuant to the agreement, including termination of the lease. There is no acceleration clause in the agreement.

On February 11, 2022, the Roseville City School's Public Financing Corporation issued certificates of participation in the amount of \$5,115,000, with an interest rate of 1.64% per annum. The certificates of participation mature on February 1, 2032.

At June 30, 2024, the outstanding principal balance for the certificates of participation was \$5,115,000. The certificates of participation mature through fiscal year 2031-32 as follows:

6. EMPLOYEE RETIREMENT SYSTEMS

Qualified employees are covered under multiple-employer defined benefit pension plans maintained by agencies of the State of California. Certificated employees are members of the State Teachers' Retirement System (STRS), and classified employees are members of the California Public Employees' Retirement System (CalPERS).

Plan Description

California Public Employees' Retirement System (CalPERS)

The District contributes to the School Employer Pool under the California Public Employees' Retirement System (CalPERS), a cost-sharing multiple-employer public employee retirement system defined benefit pension plan administered by CalPERS. The plan provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by state statutes, as legislatively amended, within the Public Employees' Retirement Law. CalPERS issues a separate comprehensive annual financial report that includes financial statements and required supplementary information. Copies of the CalPERS annual financial report may be obtained from the CalPERS Headquarters, 400 Q Street, Sacramento, California 95811.

State Teachers' Retirement System (STRS)

The District contributes to the State Teachers' Retirement System (STRS), a cost-sharing, multiple-employer, public employee retirement system defined benefit pension plan administered by STRS. The plan provides retirement and disability benefits and survivor benefits to beneficiaries. Benefit provisions are established by state statutes, as legislatively amended, within the State Teachers' Retirement Law. STRS issues a separate comprehensive annual financial report that includes financial statements and required supplementary information. Copies of the STRS annual financial report may be obtained from the STRS Headquarters, 100 Waterfront Place, West Sacramento, California 95605.

Contributions

CalPERS

Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. Funding contributions for the Plan are determined annually on an actuarial basis as of June 30 by CalPERS. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The District is required to contribute the difference between the actuarially determined rate and the contribution rate of employees.

STRS

Required member, employer and state contribution rates are set by the California Legislature and Governor and detailed in Teachers' Retirement Law. Contribution rates are expressed as a level percentage of payroll using the entry age normal actuarial cost method.

For the year ended June 30, 2024, the contributions reported as deferred outflows of resources related to pensions recognized as part of pension expense for each Plan were as follows:

	CalPERS	STRS	Total

The District's net pension liability for each Plan is measured as the proportionate share of the net pension liability. The net pension liability of each of the Plans is measured as of June 30, 2023, and the total pension liability for each Plan used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2022 rolled forward to June 30, 2023 using standard update procedures. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. The District's proportionate share of the net pension liability for the Plan as of June 30, 2022 and 2023 was as follows:

The mortality table used was developed based on CalPERS-specific data. The rates incorporate Generational Mortality to capture ongoing mortality improvement using 80% of Scale MP 2020 published by the Society of Actuaries. For more details, please refer to the 2021 experience study report that can be found on the CalPERS website.

STRS changed the mortality assumptions based on the July 1, 2015 through June 30, 2018, experience study adopted by the board in January 2020. STRS uses a generational mortality assumption, which involves the use of a base mortality table and projection scales to reflect expected annual reductions in mortality rates at each age, resulting in increases in life expectancies each year into the future. The base mortality tables are CalSTRS custom tables derived to best fit the patterns of mortality among our members. The projection scale was set equal to 110% of the ultimate improvement factor from the Mortality Improvement Scale (MP-2019) table issued by the Society of Actuaries.

Discount Rate

CalPERS

The discount rate used to measure the total pension liability for the Plan was 6.90%. The projection of cash flows used to determine the discount rate assumed that contributions from Plan members will be made at the current member contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. These discount rates are equal to the long-term expected rate of return of the respective plan assets and are net of investment expense but not reduced for administrative expenses.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account long-term market return expectations as well as the expected pension fund cash flows. Projected returns for all asset classes are estimated and, combined with risk estimates, are used to project compound (geometric) returns over the long term. The discount rate used to discount liabilities was informed by the long-term projected portfolio return. The expected rate of return was then set equal to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses.

The expected real rates of return by asset class are on the following table:

Discount Rate

STRS

The discount rate used to measure the total pension liability was 7.10%, which was unchanged from prior fiscal year. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers are made at statutory contribution rates in accordance with the rate increases actuarially determined. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return of 7.10% and assume that contributions, benefit payments and administrative expenses occur midyear. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term assumed investment rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

The long-term investment rate of return assumption was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. The best-estimate ranges were developed using capital market assumptions from STRS investment staff and investment consultants as inputs to the process.

The actuarial investment rate of return assumption was adopted by the board in January 2020 in conjunction with the most recent experience study. For each current and future valuation, STRS' independent consulting actuary (Milliman) reviews the return assumption for reasonableness based on the most current capital market assumptions. Best estimates of expected 20-year geometrically linked real rates of return and the assumed asset allocation for each major asset class as of the June 30, 2023 measurement date, are summarized in the following table:

7. OTHER POST EMPLOYMENT BENEFITS (OPEB)

The District's defined benefit plan, Roseville City School District's Other Post Employment Benefits Plan (Plan), is a single-employer defined benefit health care plan administered by the District. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75. The Plan does not issue a stand-alone financial report.

Plan Descriptions/Benefits Provided: Following is a description of the current retiree benefit plan:

	Certificated	Classified
Benefit types provided	Medical	Medical
Duration of Benefits	To age 65	Five years, buy not beyond age 65
Required Service	15 years	15 years
Minimum Age	55	55
Dependent Coverage	Yes	Yes
District Contribution Percentage:	50% at 15 years plus 10% per year to 100% at 20 years	50% at 15 years plus 10% per year to 100% at 20 years
District Cap:	\$8,876 per year*	\$7,863 per year*

* The District cap for Management groups is \$10,204.

Plan benefits and contribution requirements for both the employee and the District are established by labor agreements. All contracts with District employees may be renegotiated at various times in the future and, thus, benefits and costs are subject to change. The District has maintained the same cap level from fiscal year 2004 to 2024.

Employees Covered by Benefit Terms: The number of employees covered by the benefit terms of the Plan as of June 30, 2022 Valuation are as follows:

Inactive employees or beneficiaries currently receiving benefit payments	37
Inactive employees entitled to but not yet receiving benefit payments	-
Active employees	1,095
Total	<u>1,132</u>

Total OPEB Liability: The District's total OPEB liability of \$15,874,182 was measured as of June 30, 2023, and was determined by an actuarial valuation as of June 30, 2022.

7. OTHER POST EMPLOYMENT BENEFITS (OPEB) (CONTINUED)

Actuarial Assumptions: The total OPEB liability was determined using a financial reporting actuarial valuation as of June 30, 2022, which used the following actuarial methods and assumptions:

Salary Increases	2.75% per year
Investment rate of return	3.65% per year net of expenses based on the Bond Buyer 20 Bond Index
Inflation	2.50% per year
Healthcare cost trend rates	4.00% per year
Mortality	
Certificated	2020 CalSTRS Mortality
Classified	2017 CalPERS Mortality for Miscellaneous and Schools Employees

Because the Plan is unfunded, the yield for the 20-year, tax-exempt general obligation municipal bond was used to determine the liability as of June 30, 2024. The discount rate is based on the Bond Buyer 20 Bond Index. Prior valuations used a discount rate of 3.54%.

Mortality rates for certificated employees were based on the 2020 CalSTRS Mortality table created by CalSTRS. Mortality rates for classified employees were based on the 2017 CalPERS Active Mortality for Miscellaneous Employees table created by CalPERS.

Retirement rates for certificated employees were based on the 2020 CalSTRS Retirement Rates table created by CalSTRS. CalSTRS periodically studies the experience for participating agencies and establishes tables that are appropriate of each pool. Retirement rates for classified employees were based on the 2020 CalPERS Retirement Rates for School Employees table and the 2017 CalPERS 2% at 60 Rates for Miscellaneous Employees table created by CalPERS.

Turnover assumptions for certificated employees were based on the 2020 CalSTRS Termination Rates table created by CalSTRS. Turnover assumptions for classified employees were based on the 2017 CalPERS Termination Rates for School Employees table created by CalPERS.

9. JOINT VENTURES

Schools Insurance Group: The District is a member of a Joint Powers Authority, Schools Insurance Group (SIG), for the operation of a common risk management and insurance program. The program covers workers' compensation, property/liability, and health and welfare insurance. The membership includes the school districts in Placer and Nevada counties and their respective County Offices of Education. SIG is governed by an Executive Board consisting of representatives from member districts. The Executive Board controls the operations of SIG, including selections of management and approval of operating budgets. The JPA agreement for SIG provides that the SIG will be self-sustaining through member premiums and will reinsure through commercial companies for claims in excess of \$1,000,000, \$100,000 and \$500,000 for each insured event for workers' compensation, property and liability, respectively. The District continues to carry commercial insurance for all other risks of loss, including employee health and accident insurance. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years. There have been no significant reductions in insurance coverage from coverage in the prior year.

School Project for Utility Rate Reduction: The District is also a member of a Joint Powers Authority, School Project for Utility Rate Reduction (SPURR), for the direct purchase of gas, electricity, and other utility services. SPURR also provides advisory services relative to utilities. There have been no significant reductions in insurance coverage from coverage in the prior year.

The following is a summary of the most recent financial information for the JPAs:

Change in net position	<u>\$ 4,940,205</u>	<u>\$ 2,276,571</u>

Audited financial statements for the JPAs are prepared annually and can be obtained from management of the individual JPAs.

The relationship between the District and the two joint powers authorities is such that the Joint Powers Authorities are not component units of the District for financial reporting purposes.

FOR THE FISCAL YEAR ENDED JUNE 30, 2024

10. COMMITMENTS AND CONTINGENCIES

The District is subject to legal proceedings and claims which arise in the ordinary course of business. In the opinion of management, the amount of ultimate liability with respect to these actions will not materially affect the financial position or results of operations of the District.

Also, the District has received state and federal funds for specific purposes that are subject to review or audit by the grantor agencies. Although such audits could generate expenditure disallowances under terms of the grants, it is believed that any requirements will not be material.

11. EARLY RETIREMENT INCENTIVES

In addition to the pension benefits described above, the District adopted an early retirement incentive program, pursuant to Education Code Sections 22714 and 44929, whereby the service credit to eligible certificated employees was increased by two years.

The future payments under these early retirement incentive agreements will be made through fiscal year 2029-31 as follows:

Year Ending June 30,	STRS' Golden Handshakes
2025	\$ 655,805
2026	564,274
2027	532,642
2028	501,011
2029	278,384
2030-2031	281,999
Total Payments	2,814,115
Less amount representing interest	(532,414)
Total Principal Payments	2,281,701

12. SUBSEQUENT EVENTS

The District's management evaluated its June 30, 2024 financial statements for subsequent events through October 11, 2024, the date the financial statements were available to be issued. Management is not aware of any subsequent events, other than the one discussed above, that would require recognition or disclosure in the financial statements.

⁽¹⁾ Historical information is required only for measurement periods for which GASB 68 is applicable.

⁽²⁾ Employers are assumed to make contributions equal to the contractually required contributions. However, some employers may choose to make additional contributions towards their side fund or their unfunded liability. Employer contributions for such plans exceed the contractually required contributions. CalPERS has determined that employer obligations referred to as "side funds" do not conform to the circumstances described in paragraph 120 of GASB 68, therefore are not considered separately financed specific liabilities.

⁽³⁾ Covered payroll is the payroll on which contributions to a pension plan are based.

ROSEVILLE CITY SCHOOL DISTRICT
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
FOR THE FISCAL YEAR ENDED JUNE 30, 2024

1. PURPOSE OF SCHEDULES

A - Schedule of Revenues, Expenditures, and Changes in Fund Balance – Budget (Non-GAAP) and Actual

The District employs budget control by object codes and by individual appropriation accounts. Budgets are prepared on the modified accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board. The budgets are revised during the year by the Board of Trustees to provide for revised priorities. Expenditures cannot legally exceed appropriations by major object code. The originally adopted and final revised budgets for the General Fund are presented as Required Supplementary Information. The basis of budgeting is the same as GAAP.

B - Schedule of the Changes in the District's Net OPEB Liability and Related Ratios

Benefit changes. There were no changes in benefit terms since the prior measurement date.

Changes of assumptions. The interest assumption changed from 3.54% to 3.65%.

Fiscal year 2018 was the first year of implementation, therefore only seven years are shown.

C - Schedule of OPEB Contributions

Actuarial methods and assumptions used to set the actuarially determined contributions for fiscal year ended June 30, 2024 were from the June 30, 2022 valuation.

Actuarial cost method	Entry Age Normal Cost
Amortization method	Level percent of pay
Amortization period	13.8 years
Asset valuation method	Market value of assets (\$0; plan is not yet funded)
Inflation	2.50% per year
Healthcare cost trend rates	4.00% per year
Salary increases	2.75% per year
Discount Rates	3.65% as of June 30, 2023 (Measurement Date) 3.54% as of June 30, 2022 (Measurement Date)
Mortality	
Certificated	2020 CalSTRS Mortality
Classified	2017 CalPERS Mortality for Miscellaneous and Schools Employees

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
FOR THE FISCAL YEAR ENDED JUNE 30, 2024

1. PURPOSE OF SCHEDULES (CONTINUED)

D - Schedule of Proportionate Share of the Net Pension Liability

This schedule presents information on the District's proportionate share of the net pension liability (NPL), the Plans' fiduciary net position and, when applicable, the State's proportionate share of the NPL associated with the District. In the future, as data becomes available, ten years of information will be presented.

Changes in Assumptions

There were no changes in assumptions for CalPERS and CalSTRS.

Changes in Benefit Terms

There were no changes in benefit terms since the previous valuations for both CalPERS and CalSTRS.

E - Schedule of Pension Contributions

If an employer's contributions to the plans are actuarially determined or based on statutory or contractual requirements, the employer's actuarially determined contribution to the pension plans (or, if applicable, its statutorily or contractually required contribution), the employer's actual contributions, the difference between the actual and actuarially determined contributions (or statutorily or contractually required), and a ratio of the actual contributions divided by covered-employee payroll. In the future, as data becomes available, ten years of information will be presented.

The general fund balance has increased by \$30,888,904 over the past three years. The fiscal year 2024-2025 budget projects a decrease of \$322,659. For a District this size, the State of California recommends available reserves of at least 3 percent of total general fund expenditures, transfers out, and other uses (total outgo). The District met this requirement.

The District had an operating surplus in each of the past three fiscal years and anticipates incurring an operating deficit during the 2024-25 fiscal year.

Total long-term liabilities have increased by \$59,305,766 over the past two years due to the increases in the net pension liability and net OPEB liability.

Average Daily Attendance (ADA) has increased by 489 over the past two years. The District anticipates increases in the fiscal year 2024-2025.

ROSEVILLE CITY SCHOOL DISTRICT
NOTES TO SUPPLEMENTARY INFORMATION
FOR THE FISCAL YEAR ENDED JUNE 30, 2024

1. Schedule of Average Daily Attendance

Average daily attendance is a measurement of the number of pupils attending classes of the District. The purpose of attendance accounting from a fiscal standpoint is to provide the basis on which apportionments of state funds are made to school districts. This schedule provides information regarding the attendance of students at various grade levels and in different programs.

2. Schedule of Instructional Time

This schedule presents information on the amount of instructional time offered by the District and whether the District complied with the provisions of Education Code Sections 46201 through 46206. Districts must maintain their instructional minutes at the State's standard requirements as required by Education Code Section 46201(b).

3. Schedule of Charter Schools

This schedule provides information for the California Department of Education to monitor financial reporting by Charter Schools.

4. Reconciliation of Annual Financial and Budget Report with Audited Financial Statements

This schedule provides information necessary to reconcile the Annual Financial and Budget Report to the audited financial statements.

5. Schedule of Expenditures of Federal Awards

The accompanying schedule of expenditures of federal awards includes federal grant activity of the District and is presented under the modified accrual basis of accounting. The Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements of Federal Awards (Uniform Guidance) require a disclosure of the financial activities of all federally funded programs. This schedule was prepared to comply with the Uniform Guidance and state requirements. Therefore, some amounts presented in this schedule may differ from amounts used in the preparation of the general purpose financial statements. The District has elected not to use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance.

6. Schedule of Financial Trends and Analysis

This schedule discloses the District's financial trends by displaying past years' data along with current year budget information. These financial trend disclosures are used to evaluate the District's ability to continue as a going concern for a reasonable period of time.

7. Early Retirement Incentive Program

Education Code Section 14502 requires certain disclosure in the financial statements of districts which adopt Early Retirement Incentive Programs pursuant to Education Code Section 22714 and 44929. For the fiscal year ended June 30, 2024, the District did not adopt this program.

Report on Compliance

Opinion

We have audited the Roseville City School District (the "District") compliance with the requirements specified in the *2023-24 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting* applicable to the District's state program requirements identified below for the year ended June 30, 2024.

In our opinion, Roseville City School District complied, in all material respects, with the laws and regulations of the state programs noted in the table below for the year ended June 30, 2024.

Basis for Opinion

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS), the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and the *2023-24 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above, and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the District's state programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the *2023-24 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting* will always detect a material noncompliance when it exists.

The risk of not detecting a material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of the state programs as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the *2023-24 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit;
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we consider necessary in the circumstances;
- Obtain an understanding of the District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the *2023-24 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*, but not for the purpose of expressing an opinion on the effectiveness of the District's internal controls over compliance. Accordingly, we express no such opinion; and
- Select and test transactions and records to determine the District's compliance with the state laws and regulations applicable to the following items:

We did not perform audit procedures on Independent Study as the ADA did not exceed the materiality threshold in the current year.

The District did not operate Juvenile Court Schools in the current year; therefore, we did not perform any procedures related to Juvenile Court Schools.

The District did not offer Early Retirement Incentive Program, Continuation Education, Middle or Early College High Schools, Independent Study - Course Based, Before school portion of the After/Before School Education and Safety Program, Apprenticeship: Related and Supplemental Instruction programs in the current year; therefore, we did not perform any procedures related to these programs.

The District does not participate in District of Choice; therefore, we did not perform any procedures related to District of Choice.

We did not perform any procedures related to Immunizations because the District did not have any schools that did not submit immunization assessments or report combined conditional admission and overdue rates greater than 10% in kindergarten.

We did not perform audit procedures on Career Technical Education Incentive Grant as the District did not receive funding in the current year.

The District does not sponsor any Charter Schools, therefore, we did not perform any procedures related to Charter Schools.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identify during the audit.

Report on Internal Control over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that a material noncompliance with a compliance requirement will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention from those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit, we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the *2023-24 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*. Accordingly, this report is not suitable for any other purpose.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH GOVERNMENT AUDITING STANDARDS**

INDEPENDENT AUDITOR'S REPORT

Board of Trustees
Roseville City School District
Roseville, California

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Roseville City School District (the "District"), as of and for the fiscal year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated October 11, 2024.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT

Roseville City School District

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Roseville City School District's (the "District") compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2024. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2024.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the District's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the financial statements of Roseville City School District as of and for the year ended June 30, 2024, and have issued our report thereon dated October 11, 2024, which contained an unmodified opinion on those financial statements. Our audit was performed for the purpose of forming an opinion on the financial statements as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the financial statements as a whole.
