OUR NATION'S HISTORY

During the month that we celebrate St. Patrick's Day, it's interesting to note that an Irish-born architect (James Hoban) designed and oversaw the building of the White House in Washington, D.C. -- not just once, but twice! Hoban first built the original White House in the 1790's, and he then rebuilt it after the British burned out the building during the War of 1812, as pictured here.

SWEET TOOTH

The Honey Badger of Africa and Asia is really closer to a weasel than a true badger, but one thing about its name is definitely true: the honey badger loves honey and will avidly seek out beehives to get at it. Of course, the honey badger will also eat pretty much anything it finds -- rodents, frogs, snakes, insects, turtles, birds, lizards, eggs, vegetables, and whatever else it comes across. They've even been known to chase away young lions and steal their kills. Guess the honey badger really doesn't care!

NUTRITION TO GO

Turns out Grandma was right: chicken soup IS good for a cold! Chicken soup helps to ease cold symptoms by breaking up congestion, keeping you hydrated, and even acting as an anti-inflammatory. The taste and aroma can be therapeutic, too! There's no cure for a cold, but a piping hot bowl of soup can at least offer some relief.
