Christa McAuliffe was a high school teacher in New Hampshire when she was chosen from more than 11,000 applicants to be the first teacher in space. She, along with six other crew members, was killed when the Space Shuttle Challenger broke apart soon after taking off on January 28, 1986. She had taught Social Studies and even designed a class for her students called "The American Woman." Christa was born on September 2, 1948 and would have been 70 years old this month.
