SUMMARY

The ROSEVILLE CITY SCHOOL DISTRICT (“District”) serves over 11,000 students across 19 schools and 3 support facilities. We utilize 21st century instructional practices to ensure our students are academically confident and ready to navigate a rapidly-changing, technology-rich, global economy. The District is requesting proposals for E-rateable **CABLING INFRASTRUCTURE & COMMUNICATION CLOSET UPLIFTS** from qualified vendors to increase its current Cabling Infrastructure and improve communication closets. The District is open to all proposals from vendors that meets the Districts needs and qualifications based on the information outlined in this Request for Proposal (RFP).

BACKGROUND

In 2016 the District expanded its wireless infrastructure to achieve its goals of one-to-one and BYOD. During that work, several IDF’s throughout the District were found to be inadequate in supporting new equipment. The District is also now looking to expand its wireless coverage to cover specific outdoor locations throughout it’s campuses. To do this, new cabling infrastructure and equipment cabinets will need to be installed support modern switches and Wireless Access Points (WAPs).

SCOPE OF WORK

The District is looking for a turnkey cabling solution to adding over 100 new cable runs placed throughout its campuses to meet the challenge of providing outdoor wireless to our campuses. This will help the District achieve the goals of:

- Increasing our wireless footprint to support a one-to-one and BYOD initiatives
- Provide increased bandwidth for our existing and future applications
- To continuously improve our networking infrastructure to support the students and staff of the District.

All cabling runs will be of CAT6 or better and will be terminated as follows:

- Ceiling terminated cable runs must have a 20’ of additional cable, where applicable, for easy movement by the District in the future
- Wiring closet or wall terminations will have a 10’ service loop available
- Where available, terminations can be made into existing patch panels in a wiring closet
- All terminations must be labeled to District Standard or TIA/EIA-606A for class 4 administration
- All cable runs, including through fire stops, must meet TIA/EIA structured cabling standards

The District is looking for a turnkey cabling solution to upgrade 5 IDF's and replace existing open frame cabinets to enclosed IDF cabinets to:

- Increasing security of our wireless and wired equipment.
- Provide direct power to the networking equipment.
- Clean up existing connections.

- c. This offer is in full compliance with USAC's Free Services Advisory <http://www.usac.org/sl/applicants/step02/free-services-advisory.aspx>. STARTING SERVICES / ADVANCE INSTALLATION

The annual E-rate Funding Year begins on July 1 and expires on June 30 of each calendar year. Regardless of the contract "effective date", E-rate eligible goods and/or services requested in this RFP shall be delivered no earlier than the start of the 2018 funding year (July 1, 2018). If Category 1 services (Telecommunication Services and Internet access) will begin on or shortly after July 1 of a funding year, the service provider, in some cases, may need to undertake some construction and installation work prior to the beginning of that funding year. Within the limitations indicated below, the infrastructure costs of a service provider can be deemed to be delivered at the same time that the associated Category 1 services begin. That is, if services begin on July 1, then the delivery of service provider infrastructure necessary for those services can be considered as also delivered on July 1.

EARLY FUNDING CONDITIONS

Category 1

There are four conditions that must be met in order for USAC to provide support in a funding year for Category 1 infrastructure costs incurred prior to that funding year.

- Initiation of installation cannot take place before selection of the service provider pursuant to a posted Form 470 and in any event no earlier than six months prior to July 1 of the funding year.
- The Category 1 service must depend on the installation of the infrastructure.
- The underlying Category 1 service cannot have a service start date prior to July 1 of the funding year.

- No invoices can be submitted to USAC for reimbursement prior to July 1 of the funding year.

For more information, please refer to the FCC Order involving the Nassau County Board of Cooperative Educational Services (DA 02-3365 , released December 6, 2002). This FCC decision only applies to Priority 1 services (telecommunications services and Internet access).

The complete text can be found at the following URL:

<http://www.usac.org/sl/applicants/step05/installation.aspx>

Category 2

There is one condition that allows USAC to provide support in a funding year for Category 2 installation costs incurred prior to that funding year.

- We also amend our rules for category two non-recurring services to permit applicants to seek support for category two eligible services purchased on or after April 1, three months prior to the start of funding year on July 1. This will provide schools with the flexibility to purchase equipment in preparation for the summer recess and provide the maximum amount of time during the summer to install these critical networks.

For more information, please refer to the FCC Report and Order and Further Notice of Proposed Rulemaking (FCC 14-99 , released July 23, 2014). This FCC decision only applies to Category 2 services (Internal Connections).

INVOICING

- a. The Service Provider agrees to bill and receive a portion of the payment for the provisions of goods and services described herein directly from USAC via the Form 474 Service Provider Invoice (SPI). The District will only be responsible for paying its non-discounted share of costs and does not intend to use the BEAR process (Form 472). The maximum percentage the District will be liable for is the pre-discount amount minus the funded amount as shown on the FCC Form 471 Block 5 and any identified ineligible costs. Upon the successful receipt or posting of a Funding Commitment Decision Letter from the SLD and submission and certification of Form 486, the District shall pay only the discounted amount beginning with the billing cycle immediately following said approval. Alternatively, should the District decide that it is in the best interest of the District to file a Form 472, the District will inform the Service Provider of its intent.
- b. All Service Provider invoicing to USAC must be completed within 120 days from the last day of service. Should the Service Provider fail to invoice USAC in a timely manner, the District will only be responsible for paying its non-discounted share.

FCC/SLD AUDITABILITY

The E-rate program requires that all records be retained for at least ten (10) years from the last date of service provided on a particular funding request. Respondent hereby agrees to retain all books, records, and other documents relative to any Agreement resulting from this RFP for ten (10) years after final payment. The District, its authorized agents, and/or auditors reserves the right to perform or have performed an audit of the records of the Respondent and therefore shall have full access to and the right to examine any of said materials within a reasonable period of time during said period.

PROCUREMENT OF ADDITIONAL GOODS AND/OR SERVICES/COTERMINOUS EXPIRATION

During the term of any Agreement resulting from this RFP, the District may elect to procure additional or like goods and/or services offered by the Respondent. Such services shall be negotiated and obtained via an official amendment to this Agreement and approval by the District's Governing Board. All terms, conditions, warranties, obligations, maintenance and support of said goods or services shall have a coterminous expiration date with the original date of this Agreement. The District shall not enter into a separate Agreement for said goods or services. Respondents must state in their proposal that they acknowledge, accept and are in agreement with coterminous expiration conditions.

QUOTE EVALUATION

Each response will be reviewed prior to the selection process for completeness and adherence to format. A response will be considered complete if all requested sections are included and properly completed. The vendor may also provide any and all recommendations for consideration such as installation, maintenance, support and design that is relevant to the total solution the District has requested.

Evaluation Criteria (not necessarily in order)

- 30% Costs, including installation, recurring, upgradability, etc.

The District reserves the right to accept or reject any or all items in the bid; to accept or reject any or all bids; to waive any informalities therein; or for reasons of establishing uniformity or that serve the best interest of the District, to award the contract to other than the lowest bidder(s).
