

Walking Wednesdays

Using The Scan & Notify Program @ Junction Elementary

Junction will be using the Scan & Notify program in conjunction with Walking Wednesdays. Each student in grades K-5 who is interested in participating in Walking Wednesdays will receive a barcode tag.

Starting Wednesday, October 29th, students are encouraged to walk or bike every Wednesday (RAIN OR SHINE). Once they arrive to school on Wednesdays, a volunteer will scan their tag to track trips to school. In addition, parents may now receive notifications once their child arrives to school. See details below! This service is brought to you by Roseville Safe Routes to School.

How it Works:

Walking Wednesdays using Scan & Notify:

If your child is interested in participating, they can receive a tag at school. No personal information is collected at this point. Each tag is automatically assigned to a default teacher, mileage and mode of transportation (this is a generic, electronic raffle ticket). This is done to increase participation and students can start using their tags right away.

For Parents to be notified that their student has arrived at school

(Optional Notify Portion):

- 1.** Once your student receives a barcode tag, go to this website:
<https://junction.active4.me/Registration> and complete **ALL** the registration fields.

All personal information will be stored in an online database, only accessible to Safe Routes to School administration (see Privacy Disclosure online). If a parent doesn't complete the online registration, the student CAN still participate in Walking Wednesdays, however the data will be generic.

For example, if Johnny walks to school every Wednesday and his parent did not finish his registration, once he scans in, it will read "Barcode # 20130 in Mr.DefaultTeacher's class walked 9 miles". Johnny will still be able to participate in prize giveaways, but he will need to check at the scan station if his number is a prize winner. If Johnny loses his tag, all of his walking/biking data will be lost unless he memorizes his number.

- 2.** Print and sign the form (from Step 1 above) and turn it into the school office as soon as possible.
- 3.** Start walking or biking to school on Wednesday, October 29th, and continue **EVERY WEDNESDAY**. Get your barcode tag scanned in front of the school to be eligible for prizes.

If you are interested in volunteering as a parent scanner for 30 minutes before school starts on Wednesdays, please contact mdunn@rcsdk8.org.
